1 Instructions to the Reader

The instructions given below are followed throughout the document. For a better understanding of the material, go through the below instructions.

1. It is mandatory to execute the steps given in the numbered list to achieve the expected result.
2. Steps in the bulleted list explain the optional or additional menu elements. It is not mandatory to execute these steps to achieve the expected result.
3. Hyperlinks are used in the document to explain the optional menu elements. Click the hyperlink will navigate you to the corresponding page.

2 Introduction

Bulk Messaging allows the user to send messages in bulk. The user can buy packages that suit his/her requirement and schedule messages to be sent on a future date. The user has the flexibility to send the messages in plain text or in binary language.

Using this bulk messaging application, you can manage the following:

- Bulk Messaging supports multiple Content Providers and Service Providers.
- We can create a channel packages and based on these Channel packages a user will be able to send messages for a particular period.
- Assign roles and privileges for Content Providers, and Service Providers account.
- After creating the users, you need to create a campaign management system that explains the features of CMS and its capabilities.
- Generate Reports for Content Providers and Service Providers.

This user manual contains step-by-step instructions on how to use the features that are part of the bulk messaging application.

3 Accessing the Campaign Management System Application

You can login into the CMS application by using the below steps.

To access the Campaign Management System application:

1. Enter the URL (found in the release notes) in the web browser. The following logon screen will be displayed.

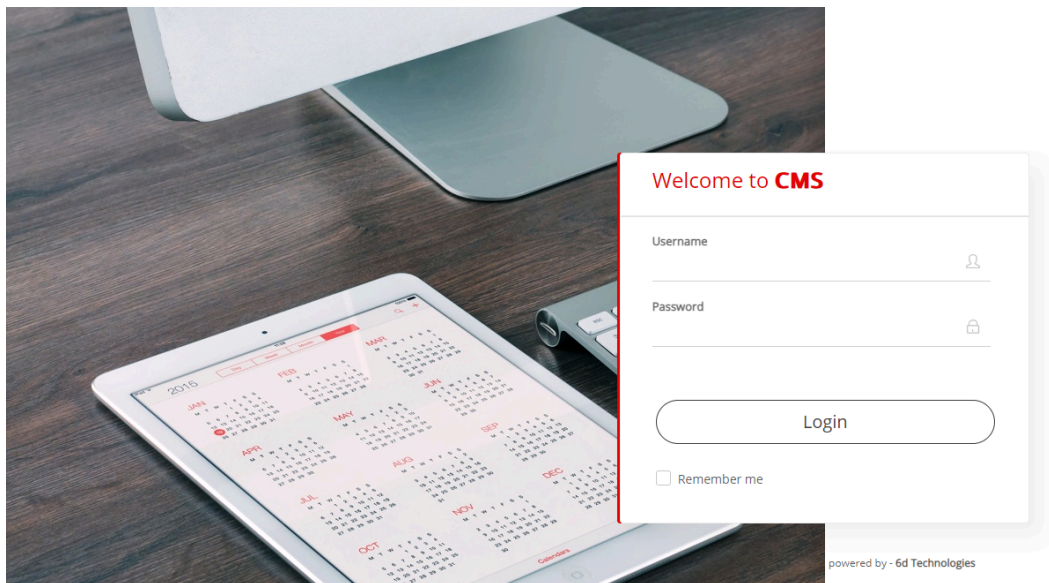

Figure 1 CMS Login Screen

2. Enter the **Username** and **Password** in the corresponding fields.
 - Select the checkbox of **Remember me** to save all the cookies of the logging user.

3. After entering all the required details, click the **Login** button. Refer to the following screen.

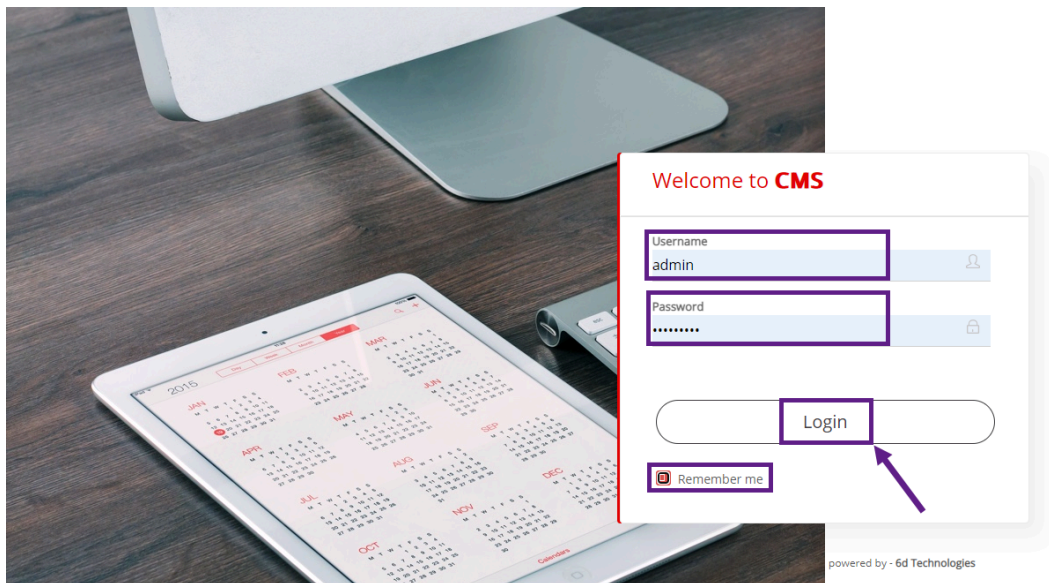

Figure 2 CMS Application Login Button

After a successful **Login**, The dashboard will be displayed on the screen.

4 Dashboard

After a successful **Login**, The dashboard will be displayed on the screen.

4.1 SMS Dashboard

On the SMS dashboard screen, you can view the following graphs and tables that represent the following details:

- Task Report
- Success and Failure Count
- SMSC to Handset – SMS Delivery Status
- Error Code Description for Yesterday
- System TPS Report for Today (Hourly)
- Hourly Delivery Status Count for Today
- Top 10 Users for Today
- Hourly Interface ID Wise Count for Today
- Top 5 SMPP Users for Today
- Delivery Success - Failure Count for Today
- Maximum TPS for Today

5 Logout from the Application

After a successful login to the application, you can logout from the application at any time.

To Logout from the Application:

1. On the right corner of the screen, click the **Logout** button to logout from the application. Refer to the following screen.

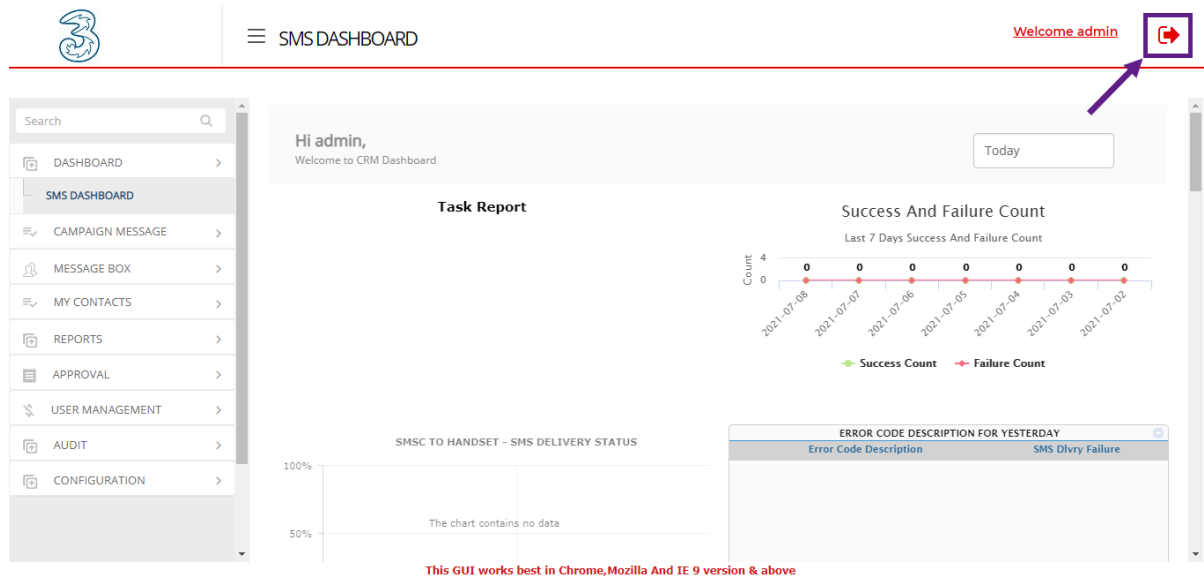

Figure 3 Logout Button

After clicking the **Logout** button, you will be successfully logged out from the application.

6 Create Service Provider and Content Provider Users

The following steps to be done to create a SP and CP user.

1. The package needs to be configured first by entering all the required details.

For more information, refer to the section [Configure Package](#).

2. Then we need to create a role and attach this created package to that role by selecting the required entity and package.

For more information, refer to the section [Role Management](#).

Note: If the **Entity** is selected as “**Service Provider**” then the package/quota should be selected as SP Related.

If the **Entity** is selected as “**Content Provider**” then the package/quota should be selected as CP Related.

3. We can create an entity relation by selecting to that particular created role.

For more information, refer to the section [Entity Relation](#).

4. Finally we can create a user (CP or SP) by attaching this created role.

For more information, refer to the section [CREATE USER](#).

Note: SP user needs to be created first in order to create CP user and they should login as SP user to create the CP user.

5. After creating the user, the user can use the messaging services.

For more information, refer to the section [Message Box](#).

7 Message Box

Using this message box, you can access the following options:

- Send Message
- Task Scheduled
- Configure Package

7.1 Send Message

Using this option, you can create a new task and configure the message details and and schedule messages in bulk to be sent on a future date by providing all the required details. You can also select the required source type and attach the source details.

To manage the Send Message:

1. On the side menu, click **Message Box >> Send Message** to view the send message screen. Refer to the following screen.

The screenshot displays the 'Send Message' interface. On the left, a sidebar menu lists 'DASHBOARD', 'CAMPAIGN MESSAGE', 'MESSAGE BOX', 'SEND MESSAGE', 'TASK SCHEDULED', 'CONFIGURE PACKAGE', and 'EMERGENCY CANCELLATION'. 'MESSAGE BOX' is highlighted with a purple box, and 'SEND MESSAGE' is selected with a purple arrow. The main content area is titled 'SEND MESSAGE' and features a 'Basic Details' section. This section contains the following fields: 'Task Name' (text input), 'Package' (dropdown menu with '--SELECT--'), 'Channel' (dropdown menu with '--SELECT--'), 'Sender ID' (dropdown menu with 'ADMIN'), 'Validity (Seconds)' (text input), 'Priority' (dropdown menu with '--SELECT--'), 'Requestor Email' (text input), and 'Delivery Required' (radio buttons for 'Yes' and 'No'). The 'SEND MESSAGE' button is highlighted with a red box and an arrow.

2. Enter/Select the following details in the corresponding fields. If the fields are marked with “|” is mandatory.

Field	Description
Basic Details	
Task Name	Enter the name of the task.
Package	Select the package in the drop-down list.
Channel	Select the channel in the drop-down list. For example, Web, SMS, and so on.
Sender ID	Select the sender ID in the drop-down list. For example, Admin, and so on.
Validity (Seconds)	Enter the validity of the package in seconds.
Priority	Select the task priority in the drop-down list. For example, High, Medium, and Low.
Requestor Email	Enter the requestor mail id in this field.
Delivery Required	Click “ Yes ” to enable delivery required. Or Click “ No ”.
Message Details	
Message Type	Select the message type in the drop-down list. For example, Text or Flash.
SMS Type	Select the radio boxes of SMS type. For example, Message or SMS Menu.

Message	Enter the message content in this field.
SMS Menu	Select the SMS menu in the drop-down list.
Message Language	Select the message language in the drop-down list.
Source Type and Details	
Upload File	After selecting the upload file option MSISDN file can be uploaded. Format:DA(line by line) Along with this 2 more features are available. • Message Included In File • Message Expansion From File 1. Message Included In File Message text box will get disabled and the user needs to configure the message in the file itself. Format:DA###\$\$TextMessage(line by line) 2. Message Expansion From File This will provide the token replacement feature. Message text box will be enabled in this case and Tokens should be enclosed with &&## in the message. Uploaded file should contain DA and Tokens Format:DA##&& Tokens(Comma separated) (line by line) After selecting the checkbox, it gives the brief details about Message included in file and message expansion from file in a pop-up window. For more details, refer to the following screen.

	▼ Help 1) If Option Selected "Upload File" To read message included from a file Click on "Message Included In CSV File" else define message separately in SMS Menu. Please Upload only CSV* files. * Format of a CSV file : 1) DA ##&& Text Message (If Checked Message Included In CSV File, fields separated by ' ##&& '). 2) Only DA List (If Message Included from CSV file is not checked). 3) MSISDN ##&& Tokens(Comma Separated) (If Message Expansion from CSV file is checked). 4) Please do not insert these tokens ==##== inside Message which will be sent to the Subscribers. 5) The tokens should be enclosed with &&## symbol inside the message. For ex: Hello &&##User_ name&&##. 2) If Option Selected "Contacts" Enter contact numbers(comma separated list) or click on Contacts to select 3) If Option Selected "Group" Select the group name from the list and select "All" to include all the contacts of that group or select "Select Contacts" to include some contacts from that group. Continue
Contacts	Enter the SMSC1 details in the corresponding field and click the Contacts button to view the contact details. Source Type ☒ Upload File ☐ Contacts ☐ Group ☐ My Friend List Source Details ☐ Message Included In File ☐ Message Expansion From File SMSC1 Choose a file... Browse Contacts

7.3 Configure Package

This section helps you to create Channel Packages. Based on these Channel packages a user will be able to send messages for a particular period. Channel Package also allows you to restrict a user to a particular number of messages for a given period of time and the maximum number of messages the user can send per Channel Package.

You can also modify and delete the existing package details.

To manage the Configure Package:

1. On the side menu, click **Message Box >> Configure Package** to view the configure package screen. Refer to the following screen.

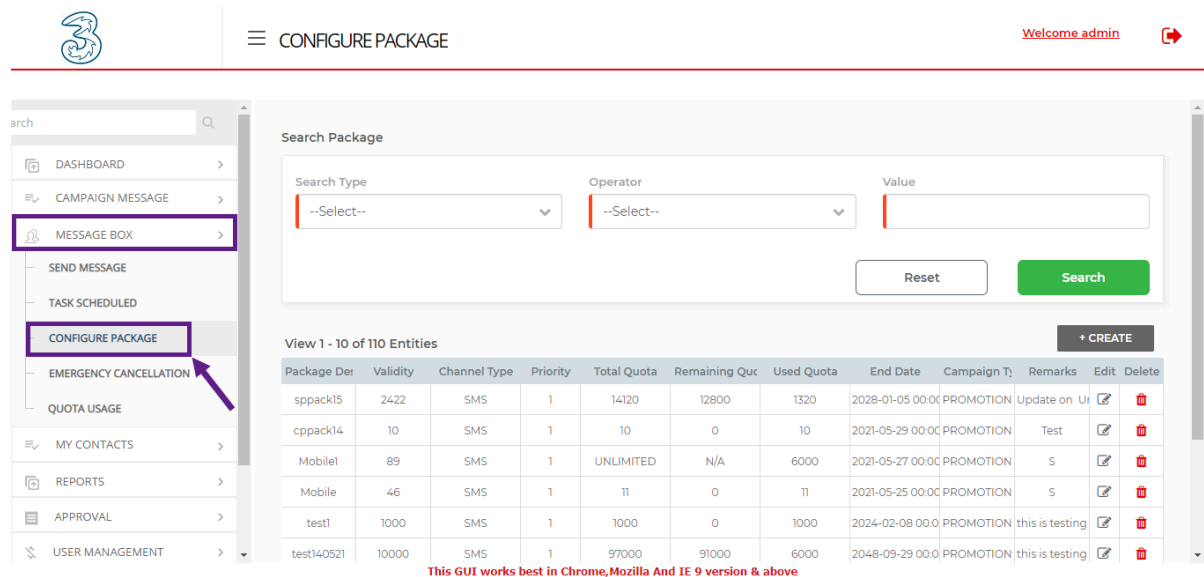

Figure 22 Send Message - Configure Package Screen

You can search for particular package details using the search option.

10. Enter/Select the following details in the corresponding fields. If the fields are marked with “|” is mandatory.

Field	Description
Search Type	Select the search type in the drop-down list. For example, Validity, Channel Type, and so on.
Operator	Select the operator in the drop-down list. For example, Equal, Contains, and so on.
Value	Enter the value of the package.

11. After entering all the required details, click the **Search** button. Refer to the following screen.

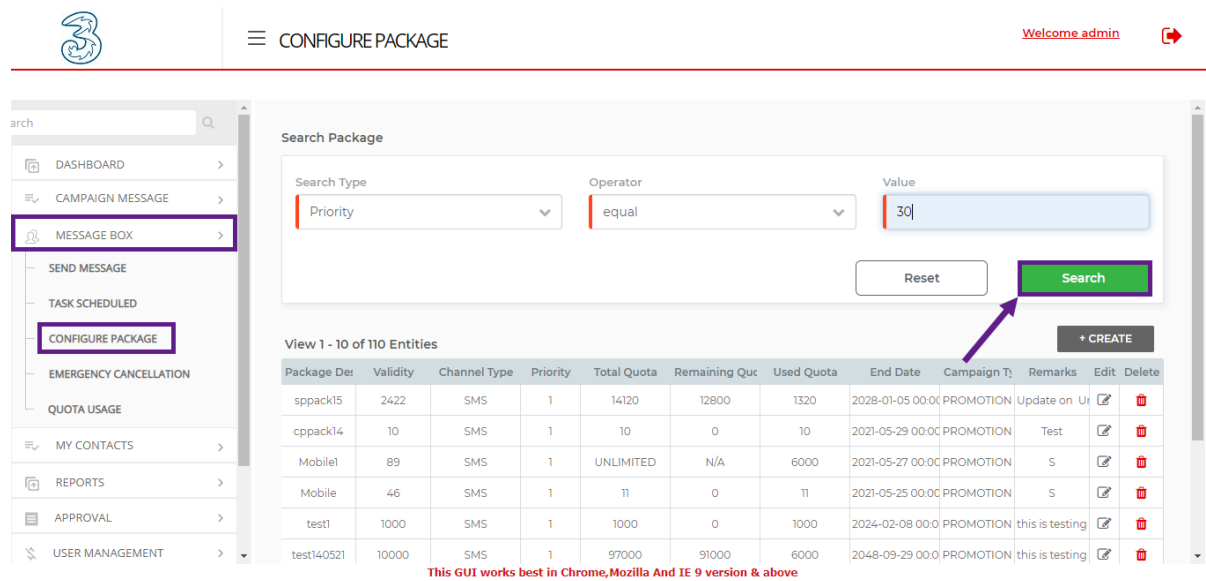

Figure 23 Configure package Search Button

Results will be displayed based on the search criteria.

7.3.1 Create Package

Using this option, you can create a new package.

To create a new Package:

1. On the **Configure Package** screen, click the **+CREATE** button to create a new package. Refer to the following screen.

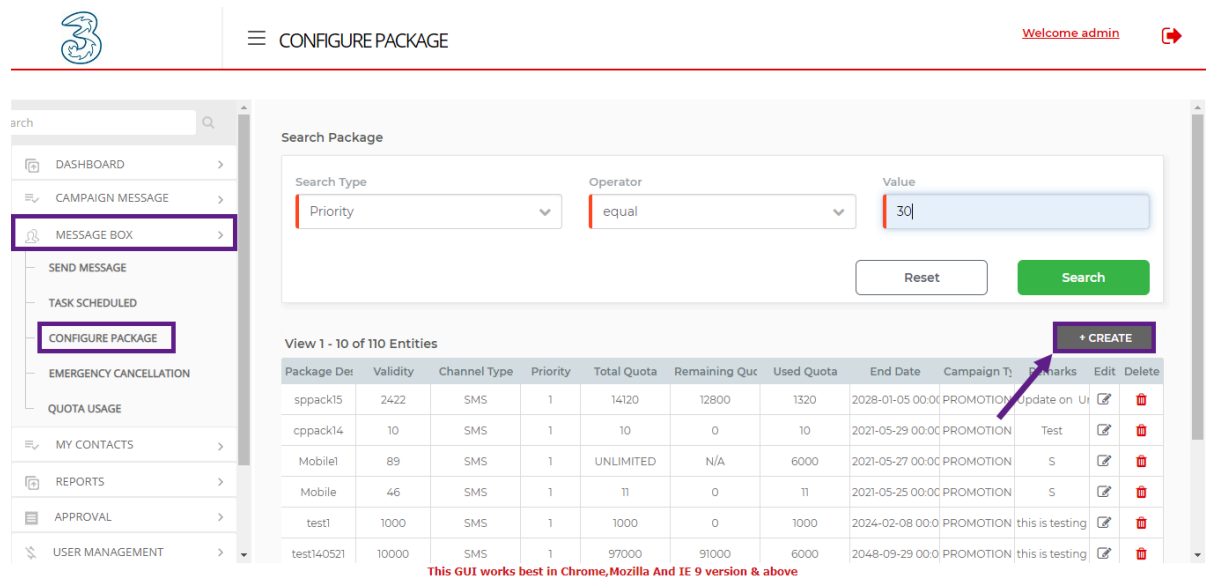

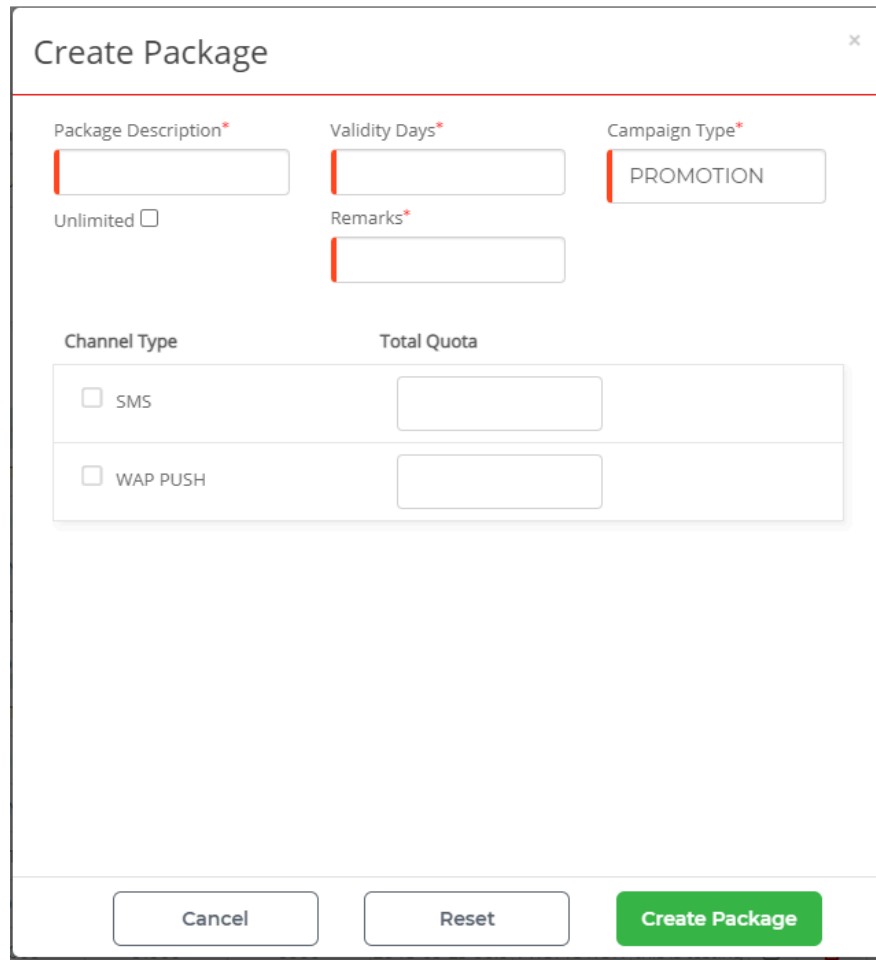

Figure 24 Configure Package Create Button

2. After clicking the **+CREATE** button, the following screen will be displayed.

The 'Create Package' screen is a modal window with a title bar and a close button. It contains several input fields and checkboxes. The 'Package Description*' field is a text box. The 'Validity Days*' field is a text box. The 'Campaign Type*' field is a dropdown menu showing 'PROMOTION'. Below these, there is an 'Unlimited' checkbox. The 'Remarks*' field is a text box. The 'Channel Type' section has two rows: 'SMS' and 'WAP PUSH', each with a checkbox and a 'Total Quota' text box. At the bottom, there are three buttons: 'Cancel', 'Reset', and 'Create Package'.

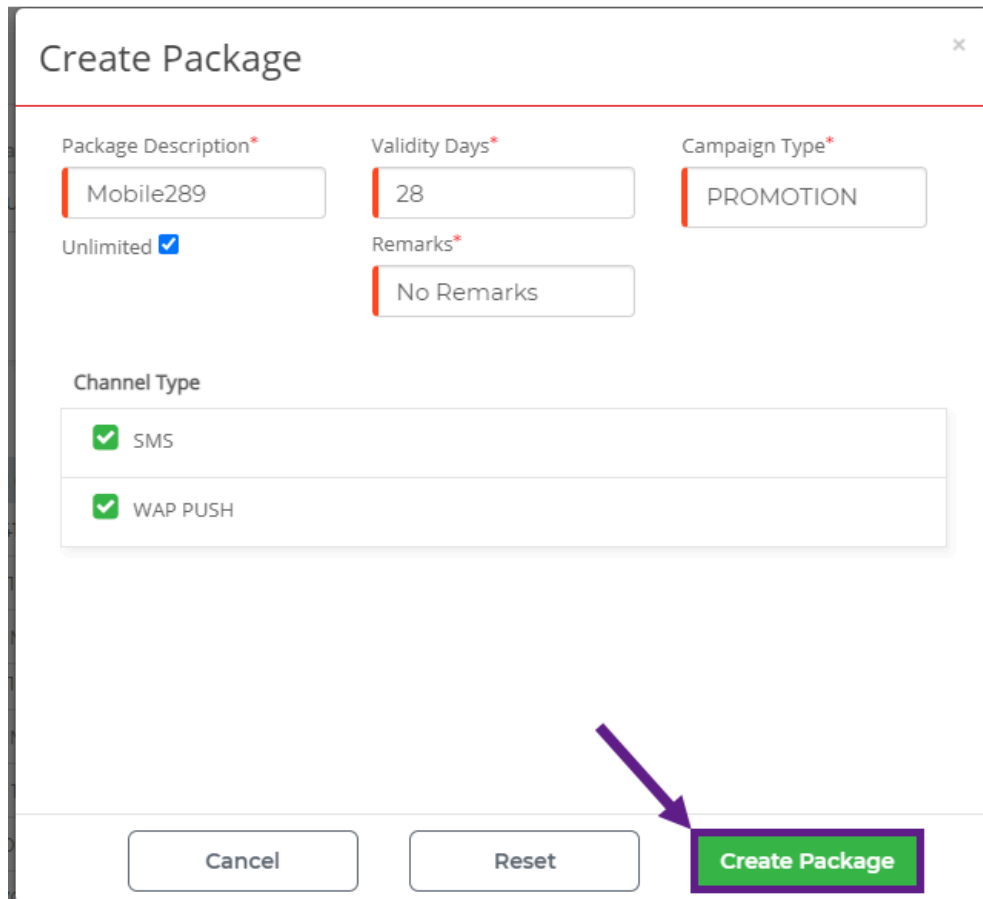

Figure 25 Create Package Details Screen

12. Enter/Select the following details in the corresponding fields. If the fields are marked with “|” is mandatory.

Field	Description
Package Description	Enter the description about the package.
Validity Days	Enter the validity days of the package.
Campaign Type	Select the campaign type in the drop-down list. For example, Promotion and Transaction.
Unlimited	Select the checkbox of unlimited if the package validity is unlimited. Note: If the unlimited checkbox is selected then the total quota fields will be disabled.
Remarks	Enter the remarks of the package, if any.

Channel Type	Select the checkbox of required channel type. For example, SMS, Wap Push, and so on.
Total Quota	Enter the total quota for selected channel.

13. After entering all the required details, click the **Create Package** button. Refer to the following screen.

- If you receive this confirmation message **"Are you sure want to delete this package?"** click **"OK"** to confirm the action.

A confirmation message will be displayed indicating that the selected **Package** is deleted successfully.

Or

Click **"Cancel"** to discard the action.

8 My Contacts

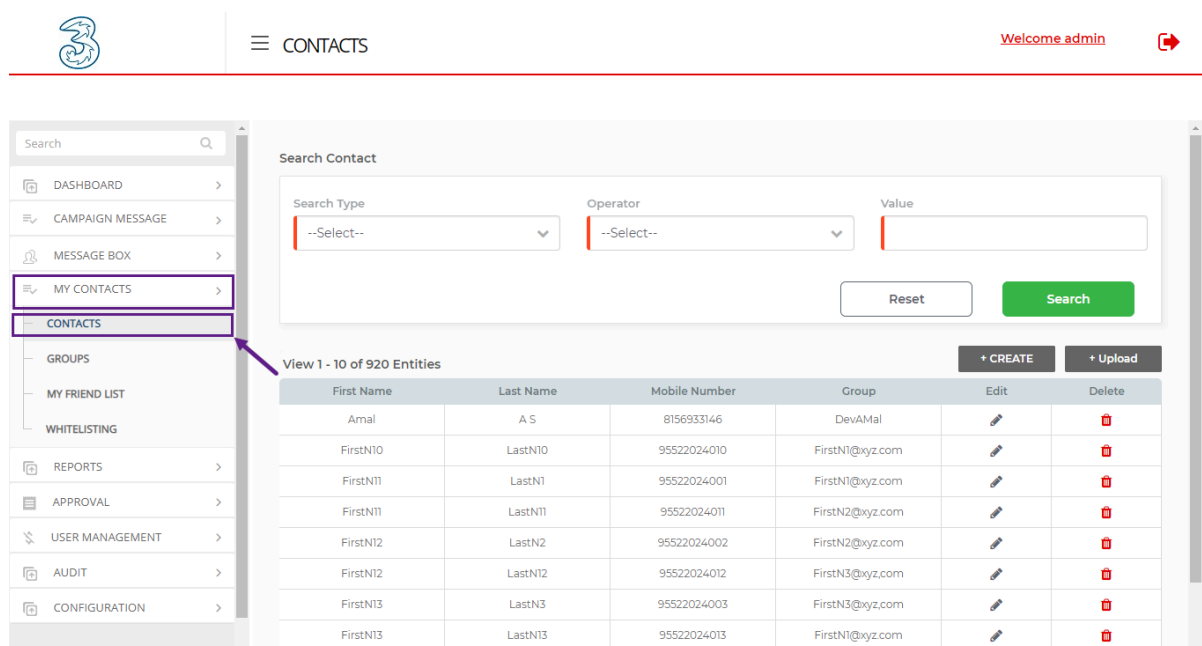

Using this option, you can manage the following operations:

- Contacts
- Group
- My Friend List
- Whitelisting

8.1 My Contacts

The My Contacts module allows you to create groups and add contacts. This enables you to target a specific group or contact list to send the messages. To manage the contacts:

- On the side menu, click **MY CONTACTS>> CONTACTS** to view the contact's detail. The following screen will be displayed.

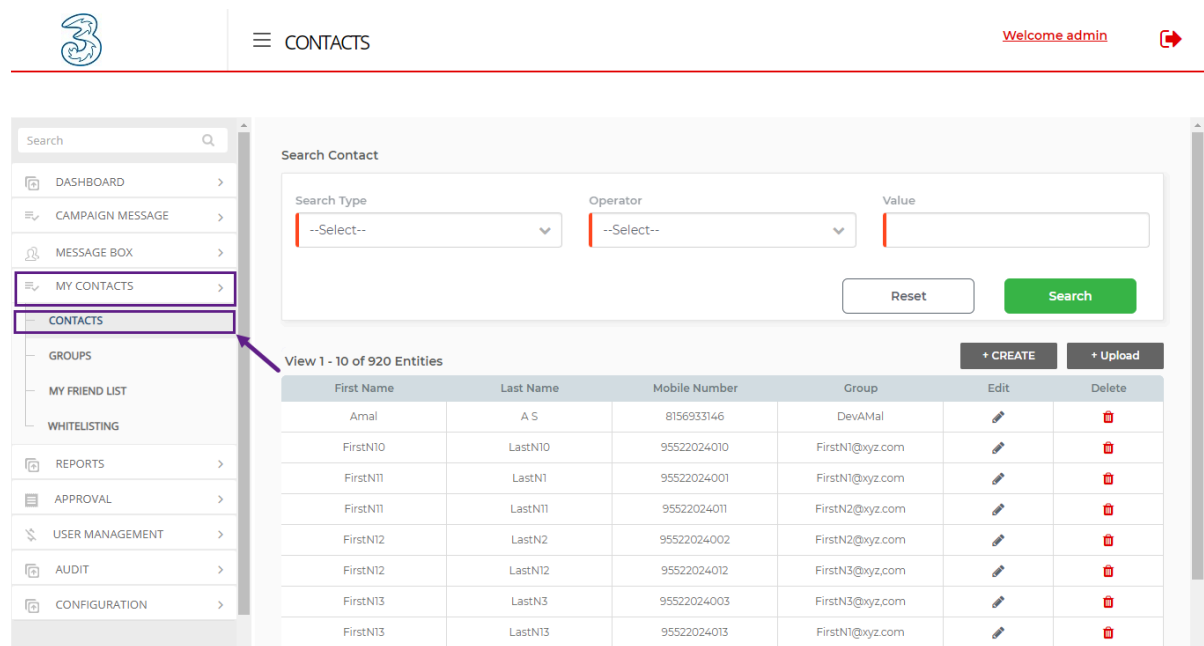

The screenshot displays the 'My Contacts - Contacts' interface. On the left, a sidebar menu lists various options, with 'CONTACTS' highlighted. The main content area features a search bar at the top, followed by a table of contacts. The table has columns for 'First Name', 'Last Name', 'Mobile Number', 'Group', 'Edit', and 'Delete'. The table shows 10 contacts, with the first one being 'Amal A S' with mobile number '8156933146' and group 'DevAMal'. The interface also includes a 'Search Contact' section with dropdowns for 'Search Type' and 'Operator', and a 'Value' input field. There are 'Reset' and 'Search' buttons. At the bottom of the table, there are '+ CREATE' and '+ Upload' buttons.

Figure 36 My Contacts- Contacts

8.1.1 Add Contact

Using this option, you can add a new contact.
 To add a new contact:

1. On the side menu, click **MY CONTACTS>> CONTACTS** to view the contact's detail. The following screen will be displayed.

The screenshot displays the 'My Contacts' interface. The top navigation bar includes a logo, the title 'CONTACTS', and a user greeting 'Welcome admin'. The left sidebar menu shows 'MY CONTACTS' and 'CONTACTS' highlighted. The main content area features a 'Search Contact' section with dropdowns for 'Search Type' and 'Operator', and a text input for 'Value'. Below this is a table titled 'View 1 - 10 of 920 Entities' with columns for First Name, Last Name, Mobile Number, Group, Edit, and Delete. The table lists several contacts, including 'Amal A S' and various 'FirstN' entries.

First Name	Last Name	Mobile Number	Group	Edit	Delete
Amal	A S	8156933146	DevAMal		
FirstN10	LastN10	95522024010	FirstN1@xyz.com

- Modify the necessary fields.
- Click **Modify**.

A confirmation message is displayed indicating that the contact is modified successfully.

8.1.4 Delete Contact

Using this option, you can delete the existing contact.
 To delete the contact:

1. On the side menu, click **MY CONTACTS>> CONTACTS** to view the contact's detail. The following screen will be displayed.

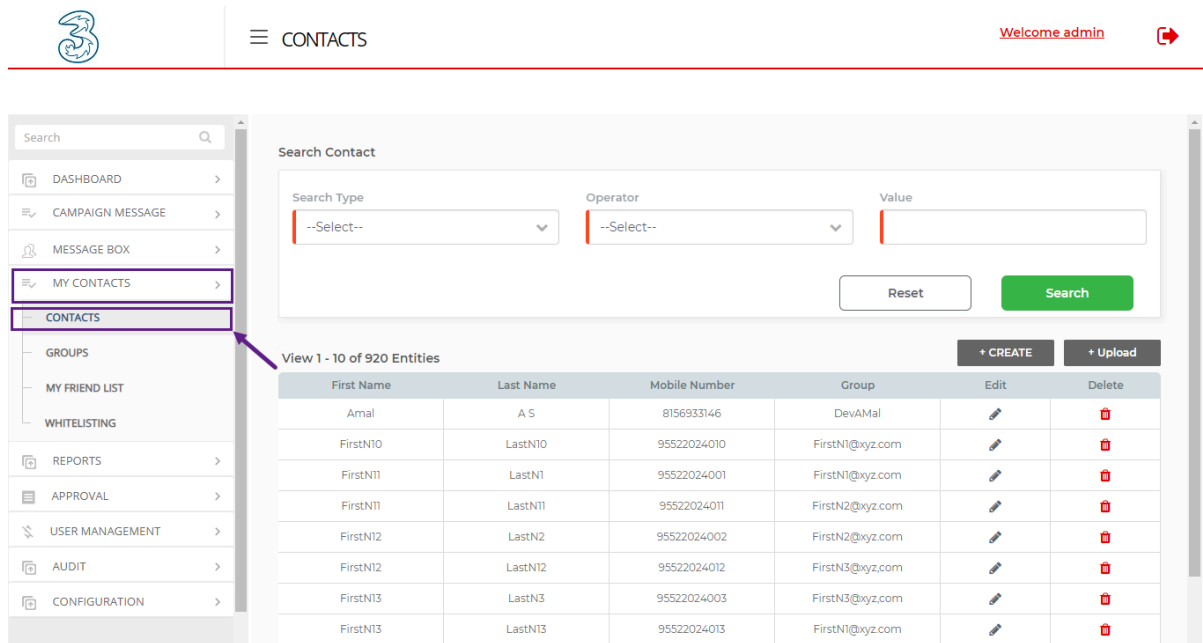

Figure 49 My Contacts- Contacts

2. On the **Contacts** screen, click the  **Delete** button to delete the existing contact. Refer to the following screen.

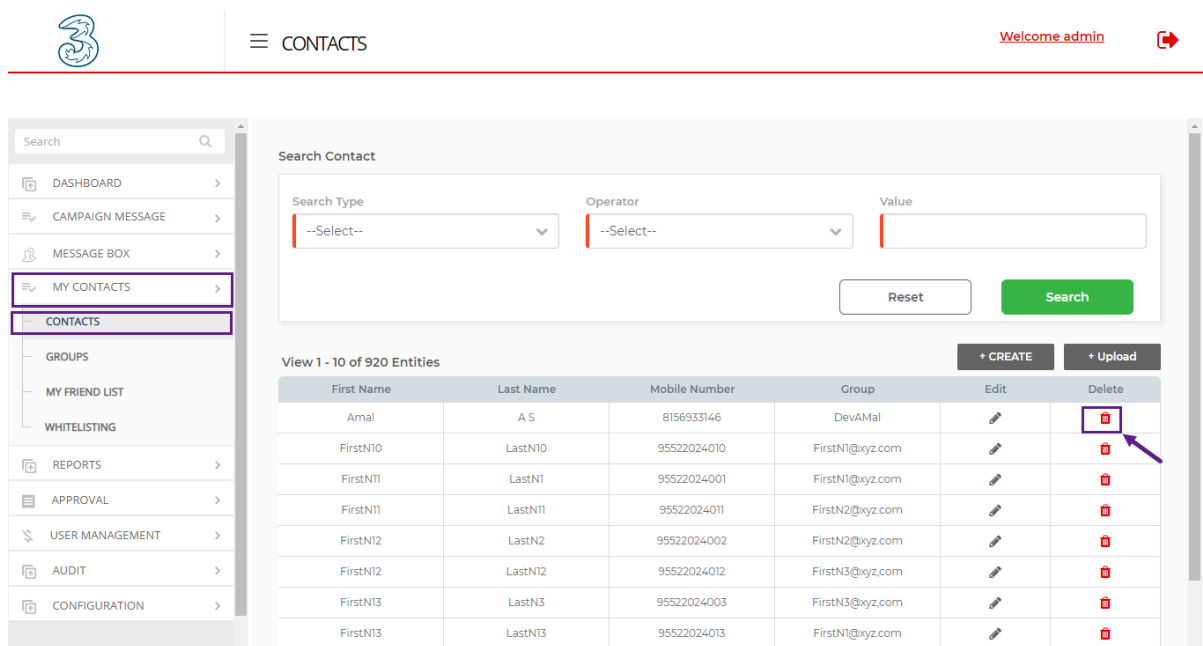

Figure 50 Contacts – Delete Button

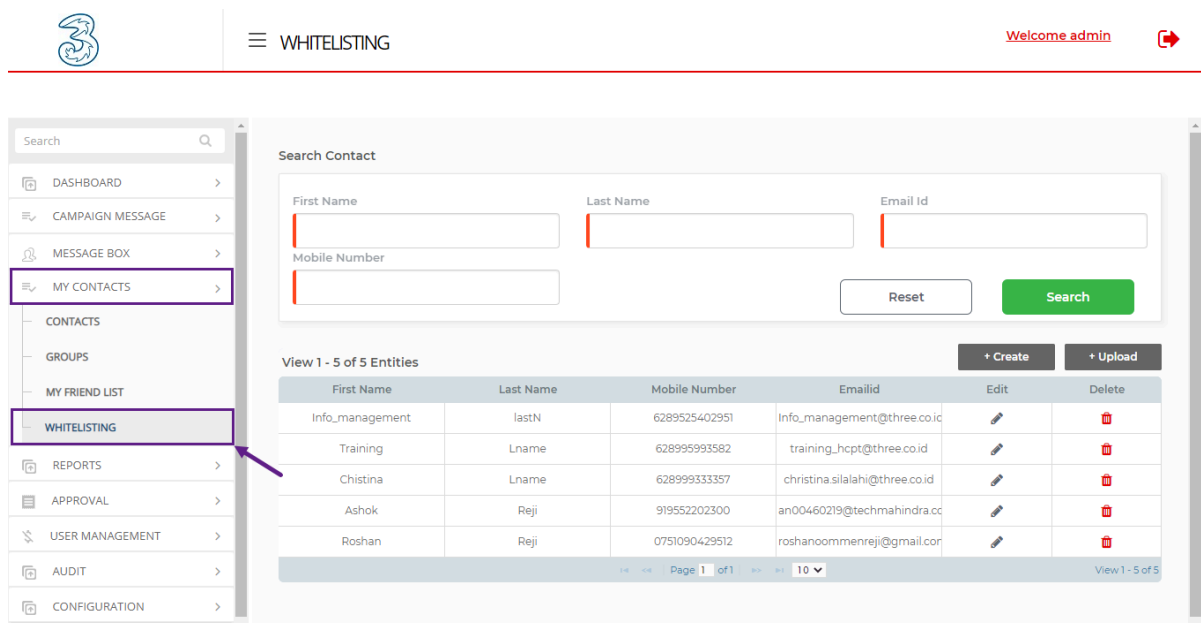

- After clicking the **Delete** button, the following message is displayed.
A confirmation message is displayed indicating that the contact is deleted successfully.

8.2 WHITELISTING

Whitelisting is defined as explicitly allowing some identified entities access to a particular service configured in the system. Using this option, you can create and upload whitelisting the contacts.

To manage the whitelisting:

- On the side menu, click **MY CONTACTS>> WHITELISTING** to view the Whitelisting detail. The following screen will be displayed.

3. After clicking the **+Create** button, the following screen will be displayed.

This GUI works best in Chrome, Mozilla And IE 9 version & above

Figure 69 Create Contact Input Screen

4. Enter or select the following information in the corresponding fields. Fields marked with “|” are mandatory

Field	Description
First Name	Enter the first name of the contact person in this field
Last Name	Enter the last name of the contact person in this field.

Mobile Number	Enter the mobile number of the contact person in this field.
Email ID	Enter the unique Email ID of the contact.

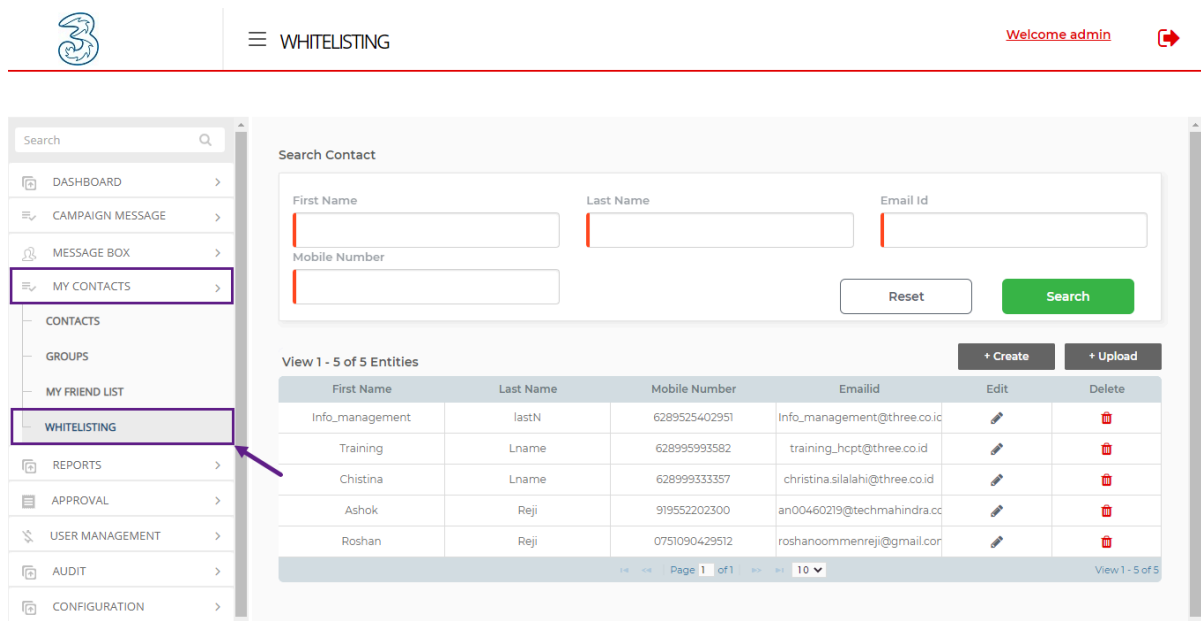

5. After providing the required details, click **Create Contact**.

A confirmation message is displayed indicating that the whitelisting is created successfully.

8.2.2 Upload Whitelisting

Using this option, you can upload a new whitelisting contact.
To upload a new whitelisting:

1. On the side menu, click **MY CONTACTS>> WHITELISTING** to view the Whitelisting detail. The following screen will be displayed.

The screenshot displays the 'WHITELISTING' interface. The top navigation bar includes a logo, a hamburger menu, the text 'WHITELISTING', and a user greeting 'Welcome admin'. The left sidebar contains a search bar and a list of menu items: DASHBOARD, CAMPAIGN MESSAGE, MESSAGE BOX, MY CONTACTS, CONTACTS, GROUPS, MY FRIEND LIST, WHITELISTING (highlighted with a purple box and an arrow), REPORTS, APPROVAL, USER MANAGEMENT, AUDIT, and CONFIGURATION. The main content area features a 'Search Contact' form with input fields for First Name, Last Name, Email Id, and Mobile Number, along with 'Reset' and 'Search' buttons. Below the form, a table titled 'View 1 - 5 of 5 Entities' lists contact information with columns for First Name, Last Name, Mobile Number, Emailid, Edit, and Delete. The table contains five rows of data. At the bottom right of the table area, there are '+ Create' and '+ Upload' buttons.

3. After clicking the **Delete** button, the following message is displayed.
A confirmation message is displayed indicating that the whitelisting is deleted successfully.

9 Reports

Using this reports option, you can access to the following reports.

- Delivery Online
- CP User Report
- Task Status Report
- Delivery Offline
- MSISDN Detailed Report
- Campaign Summary Report

9.1 Delivery Online

This report gives all the delivery online details such as total delivery, success, and failure deliver details. You can also download the report in required format.

To view the Delivery Online:

1. On the side menu, click **Reports >> Delivery Online** to view the delivery online screen. Refer to the following screen.

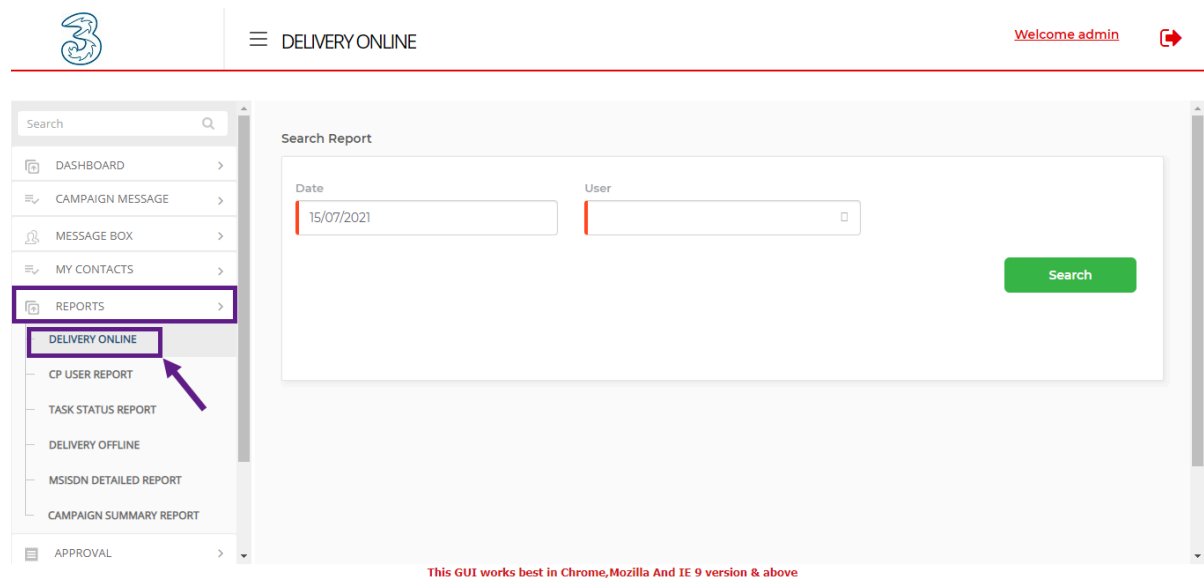

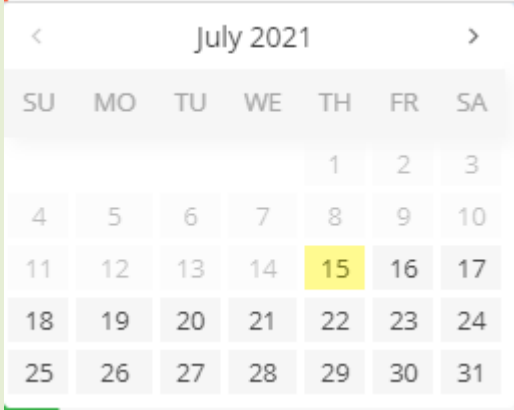

Figure 80 Reports- Delivery Online Report

14. Enter/Select the following details in the corresponding fields. If the fields are marked with “|” is mandatory.

Field	Description
Date	Select the date in the calendar. 
User	Select the user in the drop-down list. For example, All, Cpuser, and so on.

15. After entering all the required details, click the **Search** button. Refer to the following screen.

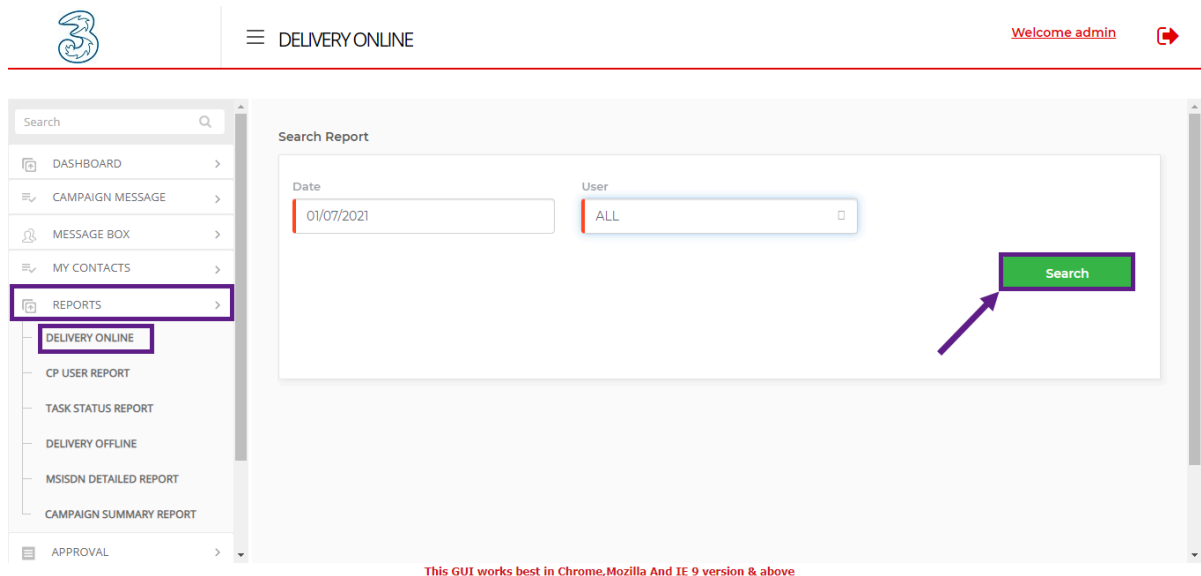

Figure 81 Delivery Online Search Button

16. After clicking the **Search** button, the report will be displayed on the screen.

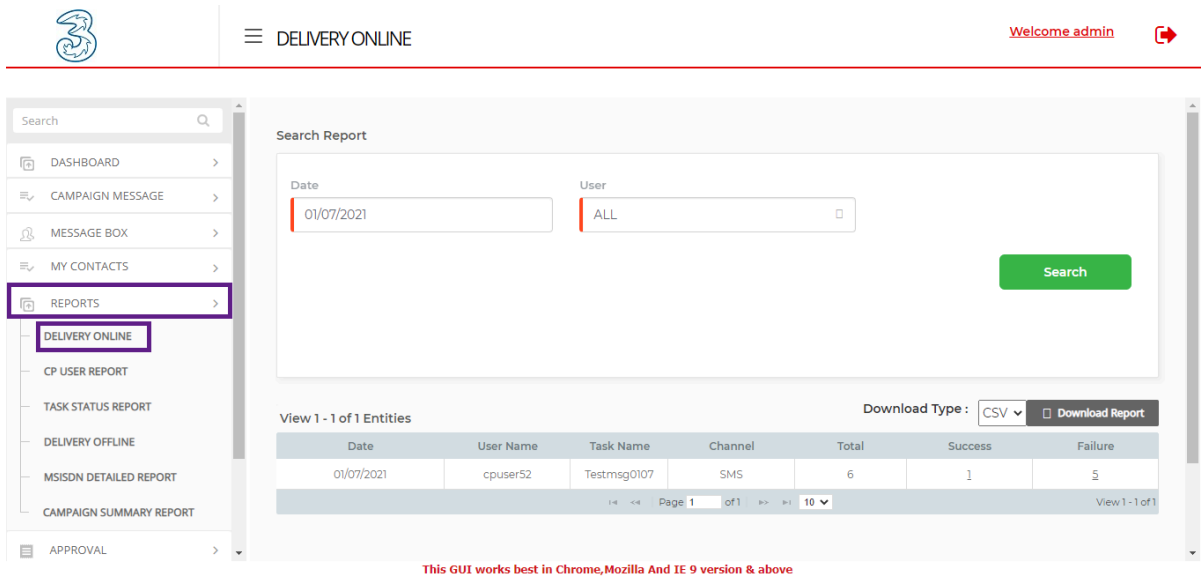

Figure 82 Delivery Online Details Screen

- On the **Delivery Online** screen, select the **Download Type** and click the **Download Report** button to download the report in required format. Refer to the following screen.

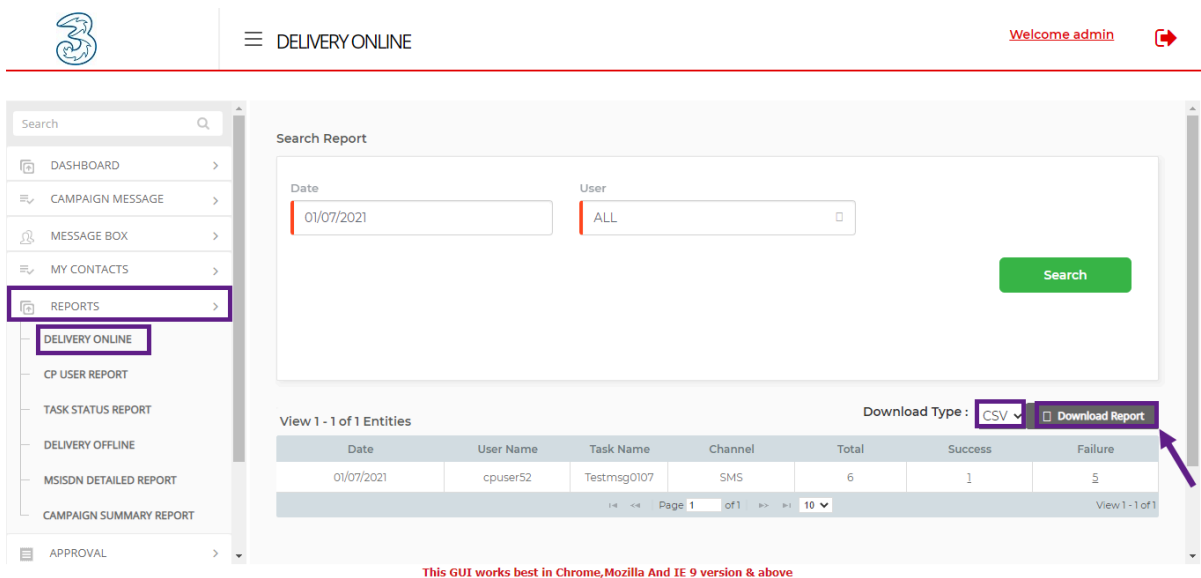

Figure 83 Download Report Button

The report will be downloaded in the users system.

Note: You can download the report only in CSV, PDF, and XLS formats.

The following **Delivery Online** report details are displayed.

Field	Description
Date	Indicates the date of the online delivery.
User Name	Indicates the name of the user.
Task Name	Indicates the name of the task.
Channel	Indicates the type of channel.
Total	Indicates the total submit success count.
Success	Indicates the total success delivery count.
Failure	Indicates the total failure delivery count.

9.2 CP User Report

This report gives all the CP users details who logged in to the circle.

To view the CP User Report:

1. On the side menu, click **Reports >> CP User Report** to view the CP user report screen. Refer to the following screen.

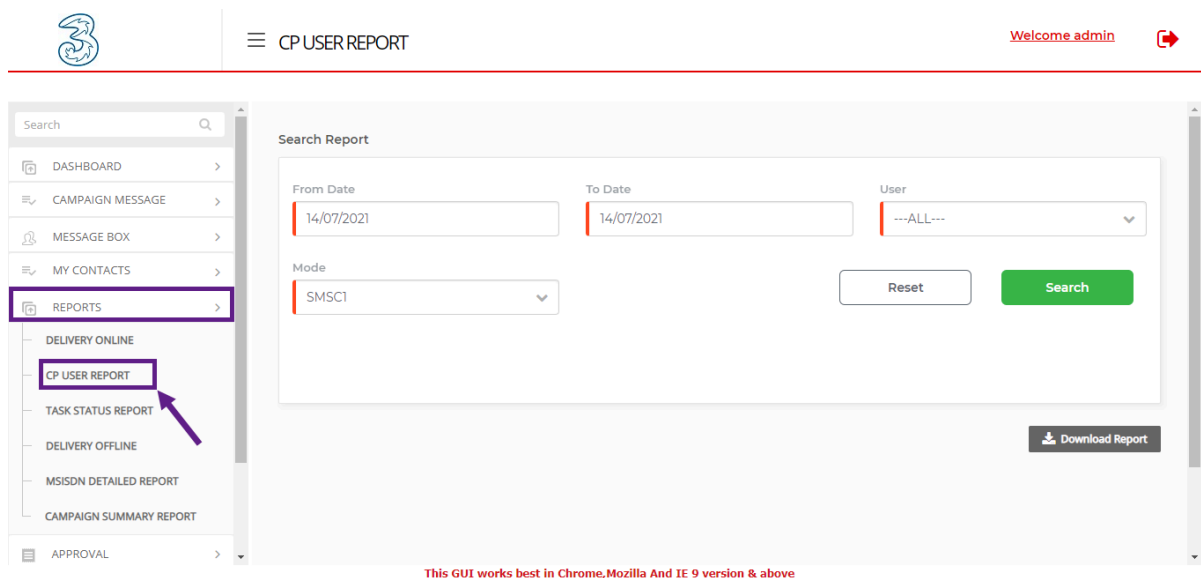

Figure 84 Reports- CP User Report

17. Enter/Select the following details in the corresponding fields. If the fields are marked with “|” is mandatory.

Field	Description
-------	-------------

From Date	Select the From date in the calendar.
To Date	Select the To date in the calendar.
User	Select the user in the drop-down list. For example, All, Cpuser, and so on.
Mode	Select the mode in the drop-down list. For example, SMSC1, and so on.

18. After entering all the required details, click the **Search** button. Refer to the following screen.

9.4 Delivery Offline

This report gives all the delivery offline details such as total delivery, success, and failure deliver details.

To view the Delivery Offline:

1. On the side menu, click **Reports >> Delivery Offline** to view the delivery offline screen. Refer to the following screen.

The screenshot shows the user interface for the 'Delivery Offline' report. On the left, a sidebar menu lists various reports, with 'REPORTS' expanded and 'DELIVERY OFFLINE' selected. The main content area displays a 'Search Report' form with two input fields: 'Date' (containing '14/07/2021') and 'User' (a dropdown menu with 'Select'). Below these fields are 'Reset' and 'Search' buttons. A red arrow points to the 'DELIVERY OFFLINE' option in the sidebar. At the bottom of the interface, a note states: 'This GUI works best in Chrome, Mozilla And IE 9 version & above'.

The following **MSISDN Detailed Report** details are displayed.

Field	Description
Campaign Name	Indicates the name of the campaign.
Requestor Mail	Indicates the mail address of the requestor.
Sender	Indicates the unique id of the sender.
Message Validity (Seconds)	Indicates message validity details in seconds.
Delivery Required	Indicates the delivery required status.
Start Date Time	Indicates the message start date and time.

End Date Time	Indicates the message end date and time.
Message Type	Indicates the type of message.
Push URL	Indicates the push URL details.
Message	Indicates the content of the message.
Channel	Indicates the type of channel.
Total Target	Indicates the total target messages details.
Total Sent	Indicates the total sent messages details.
Total DR	Indicates the total delivery messages details.

10 User Management

The User Management module allows the service provider to do the following:

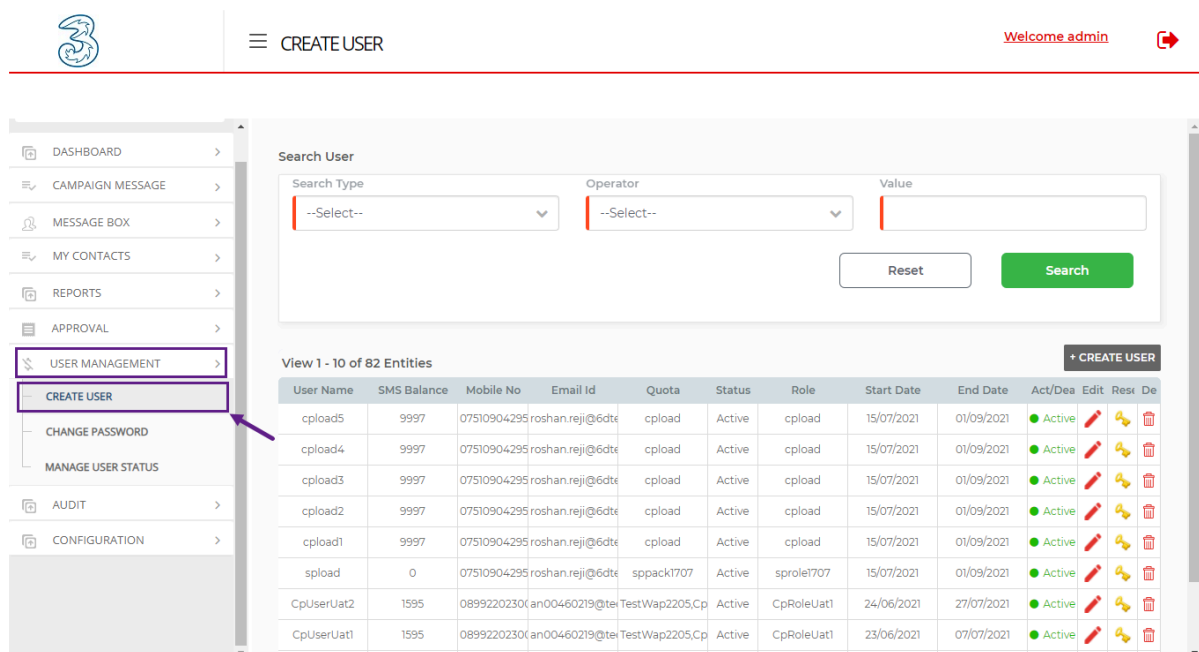

- Create User
- Change Password
- Manage User Status

10.1 CREATE USER

This option allows the administrator to create users who can access the Bulk Messaging platform.

To manage the user:

1. On the side menu, click **USER MANAGEMENT >> CREATE USER** to view the create user detail. The following screen will be displayed.

The screenshot displays the 'CREATE USER' page. On the left, a sidebar menu lists various options, with 'USER MANAGEMENT' and 'CREATE USER' highlighted. The main area features a search bar with fields for 'Search Type', 'Operator', and 'Value', along with 'Reset' and 'Search' buttons. Below the search bar, a table titled 'View 1 - 10 of 82 Entities' lists existing users. The table includes columns for User Name, SMS Balance, Mobile No, Email Id, Quota, Status, Role, Start Date, End Date, and action icons (Active, Edit, Res, De).

User Name	SMS Balance	Mobile No	Email Id	Quota	Status	Role	Start Date	End Date	Act/Dea	Edit	Res	De

Figure 105 User Management – Create User

10.1.1 Add User

Using this option, you can add a new user.
To add new user:

1. On the side menu, click **USER MANAGEMENT**>> **CREATE USER** to view the create user detail. The following screen will be displayed.

The screenshot displays the 'CREATE USER' interface. On the left, a sidebar menu lists various system functions, with 'CREATE USER' selected under the 'USER MANAGEMENT' section. The main content area features a search bar at the top with fields for 'Search Type', 'Operator', and 'Value', along with 'Reset' and 'Search' buttons. Below the search bar, a table titled 'View 1 - 10 of 82 Entities' lists existing users. The table includes columns for User Name, SMS Balance, Mobile No, Email Id, Quota, Status, Role, Start Date, End Date, and action icons (Active, Edit, Res, De). A '+ CREATE USER' button is located in the top right corner of the table area.

Figure 106 User Management – Create User

2. On the **USER MANAGEMENT** screen, click the **+Create User** button to create a new user. Refer to the following screen.

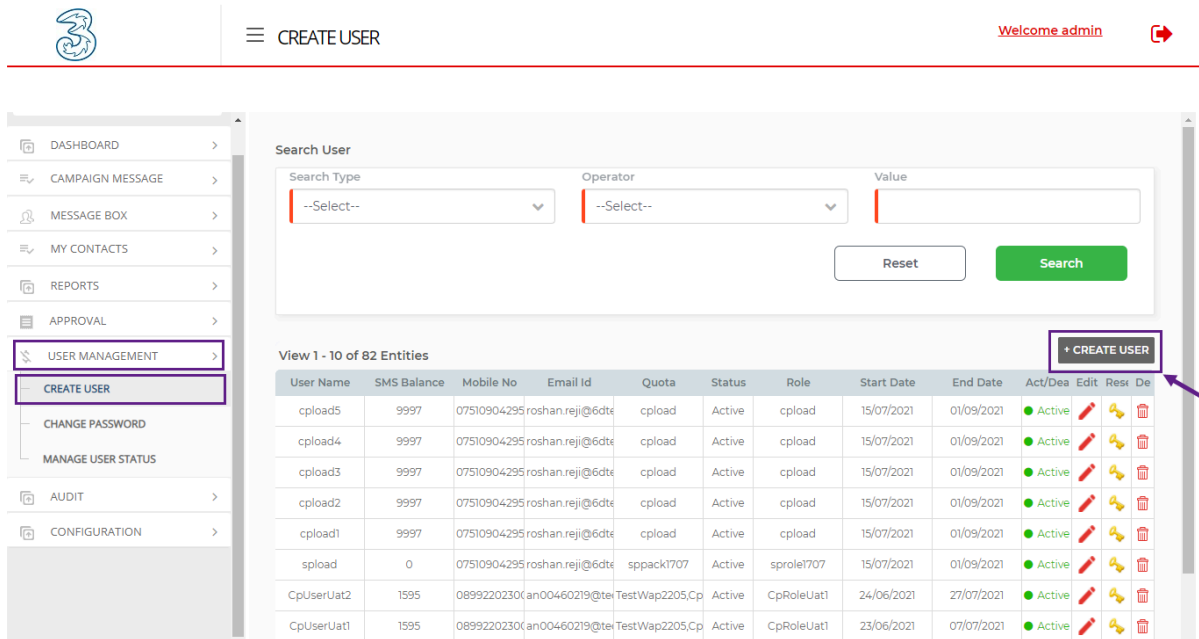

Figure 107 Create User Button

3. After clicking the **+Create User** button, the following screen will be displayed.

The screenshot shows the 'CREATE USER' input detail screen. The sidebar is the same as in Figure 107. The main area contains form fields for: User Name*, User Password*, Full Name*, Mobile Number*, Email ID*, Contact Person, Start Date* (with a calendar icon), End Date* (with a calendar icon), Status* (with radio buttons for Active and InActive), Schedule Start Time* (with a clock icon), Schedule End Time* (with a clock icon), Role* (with a dropdown menu), and a Black List section with NO and YES buttons. At the bottom are RESET and NEXT buttons.

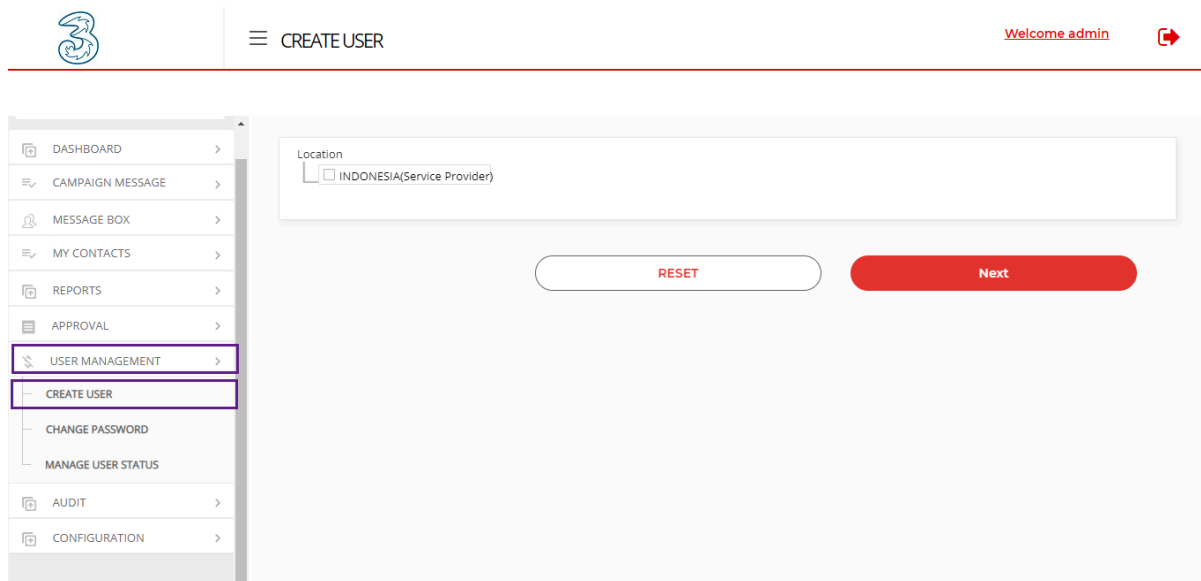

Figure 108 Create User Input Detail Screen

4. Enter or select the following information in the corresponding fields. Fields marked with "*" are mandatory.

Field	Description
Username	Enter the username (login ID) with which the customer will access the application
User Password	Enter the password in this field.
Full Name	Enter the customer's full name in this field.
Mobile Number	Enter the mobile number of the customer in this field.

Email ID	Enter the email ID of the customer in this field.
Contact Person	Enter the name of the contact person.
Start Date	Select the date from which the user will be active.
End Date	Select the date up to which the user will be valid.
Status	The status of the customer (Active or Inactive).
Schedule Start Time	Select the Schedule start time.
Schedule End Time	Select the Schedule end time.
Role	Select the user role in the drop-down list. For example, “ Admin Role ”.
Package	Select the package in the drop-down list. For example, “SPpack07”. Note: This field is displayed after selecting the role in the drop-down list.
Black List	Select whether Black List is enabled or not.

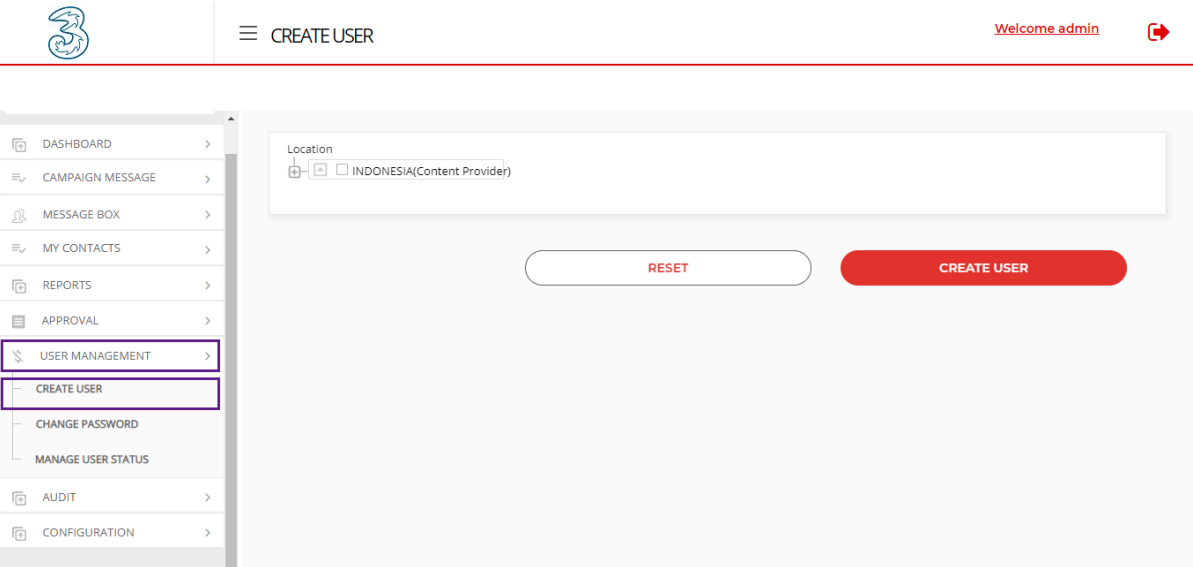

5. After providing the required details, click **Next**. The following screen will be displayed.

The screenshot shows the 'CREATE USER' interface. On the left, a sidebar menu lists various options, with 'CREATE USER' highlighted. The main content area is titled 'CREATE USER' and features a 'Location' dropdown menu. The dropdown is open, showing 'INDONESIA(Service Provider)' as the selected option. Below the dropdown, there are two buttons: 'RESET' and 'Next'.

Figure 109 Create User – Select Location

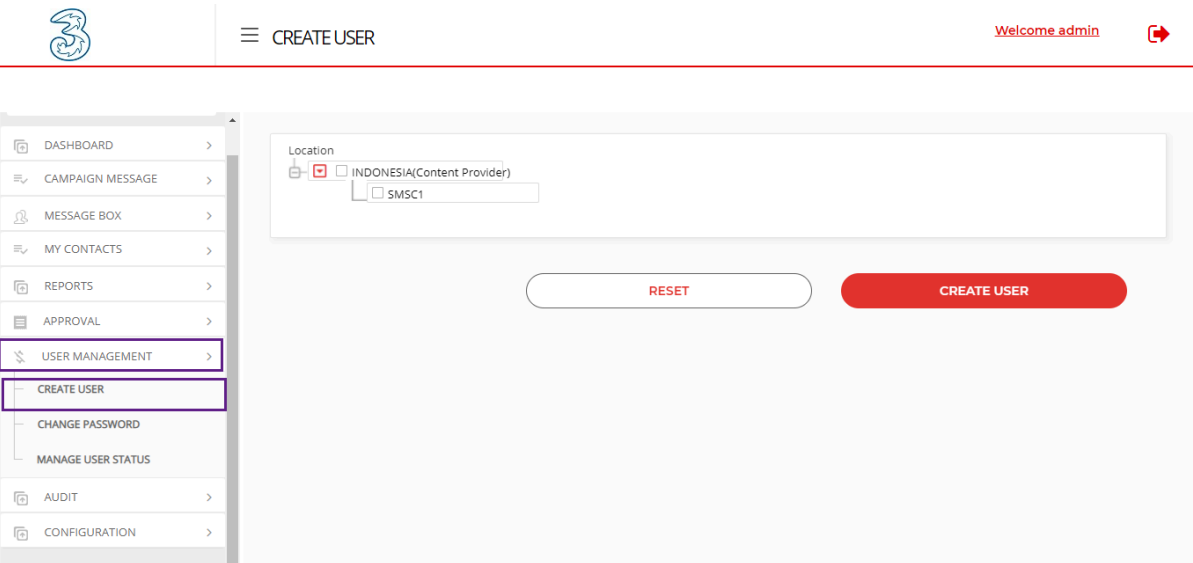

6. Select the location of the user. Click **Next**. The following screen will be displayed.

The screenshot shows the 'CREATE USER' interface. On the left is a sidebar menu with options: DASHBOARD, CAMPAIGN MESSAGE, MESSAGE BOX, MY CONTACTS, REPORTS, APPROVAL, USER MANAGEMENT (highlighted), CREATE USER (highlighted), CHANGE PASSWORD, and MANAGE USER STATUS. The main area has a 'Location' input field containing a tree structure icon and the text 'INDONESIA(Content Provider)'. Below the input field are two buttons: 'RESET' and 'CREATE USER'. The top header includes a logo, a hamburger menu, the text 'CREATE USER', and a 'Welcome admin' message with a red arrow icon.

Figure 110 Create User- Location Input Detail Screen

Note: Click  to open the tree structure. The following screen is displayed.

This screenshot is similar to Figure 110 but shows the 'Location' input field with a tree structure icon and the text 'INDONESIA(Content Provider)' and 'SMSC1' visible. The 'RESET' and 'CREATE USER' buttons are still present. The sidebar menu and top header are identical to the previous figure.

Figure 111 Create User- Location Checkbox

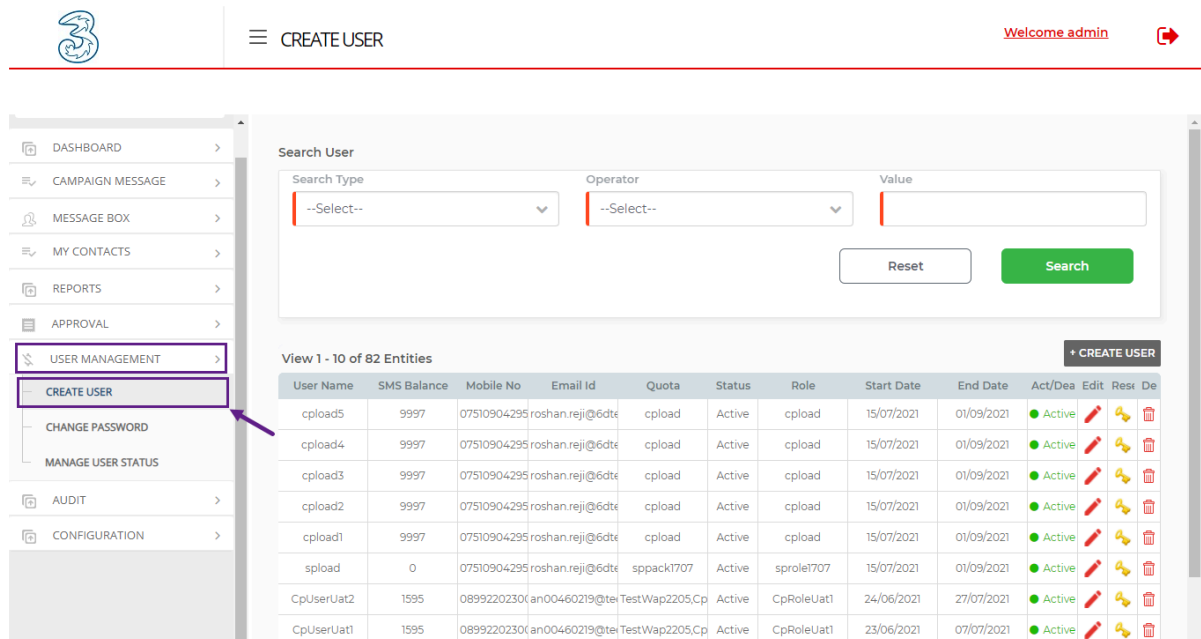

7. Select the location module checkbox and click **CREATE USER**.

A confirmation message is displayed indicating that the user is created successfully.

10.1.2 Reset Password

Using this option, you reset the password of the existing user.
 To reset the password:

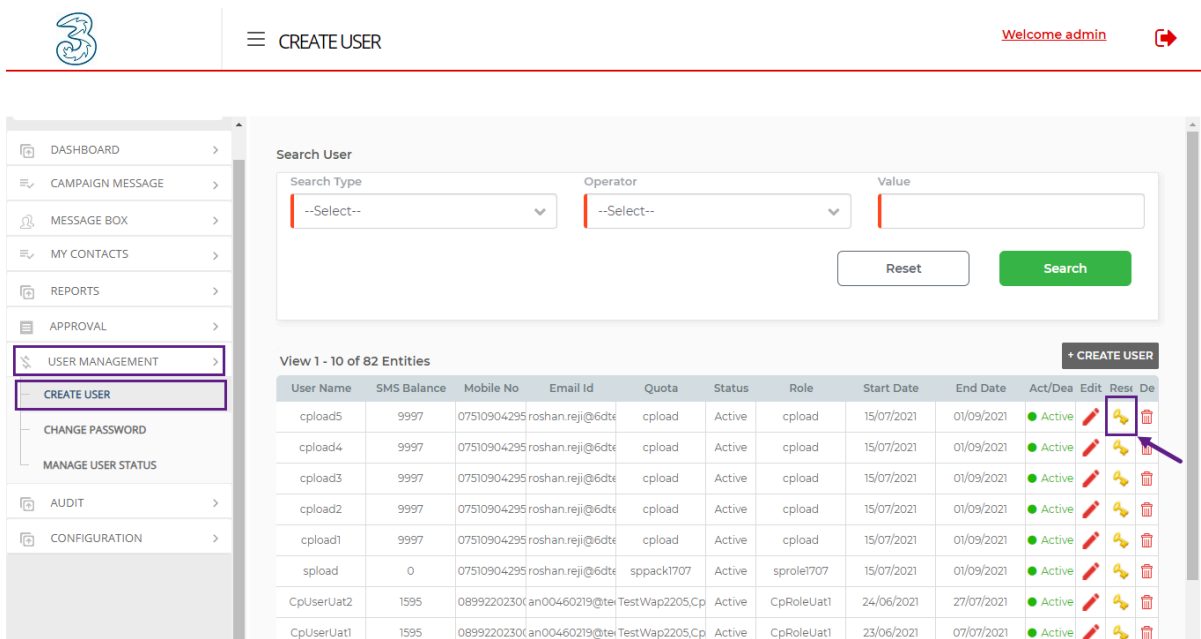

1. On the side menu, click **USER MANAGEMENT>> CREATE USER** to view the create user detail. The following screen will be displayed.

The screenshot shows the 'CREATE USER' interface. The left sidebar contains a navigation menu with 'CREATE USER' selected. The main content area features a 'Search User' section with dropdowns for 'Search Type' and 'Operator', and a text input for 'Value'. Below this is a table titled 'View 1 - 10 of 82 Entities' listing users with columns for User Name, SMS Balance, Mobile No, Email Id, Quota, Status, Role, Start Date, End Date, and Act/Dea. A purple arrow points to the 'CREATE USER' button in the sidebar.

Figure 112 User Management – Create User

2. On the **USER MANAGEMENT** screen, click the **Reset Password** button to reset the password of a user. Refer to the following screen.

This screenshot is similar to Figure 112, but a purple box highlights the 'Reset Password' button (represented by a key icon) in the 'Edit' column of the user table. A purple arrow points to this button.

Figure 113 Create User – Reset Password Button

- After clicking the **Reset Password** button, the following pop-up window is displayed.

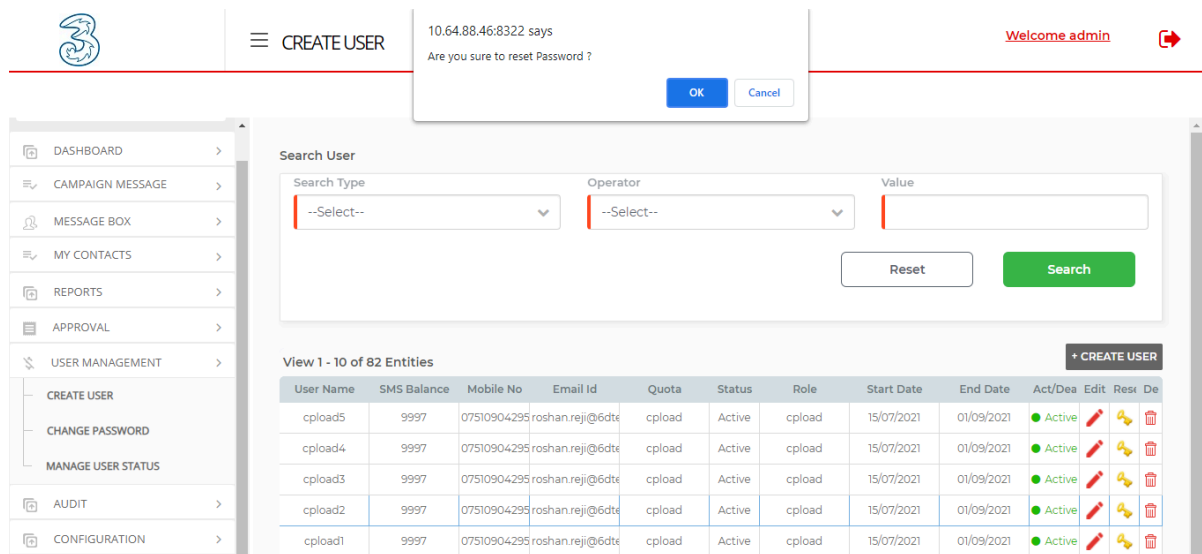

Figure 114 Reset Password – Confirmation Dialog

- If you receive the message, **"Are you sure to reset Password?"**, click **"OK"** to confirm the action.

A confirmation message is displayed indicating that the password is reset successfully.

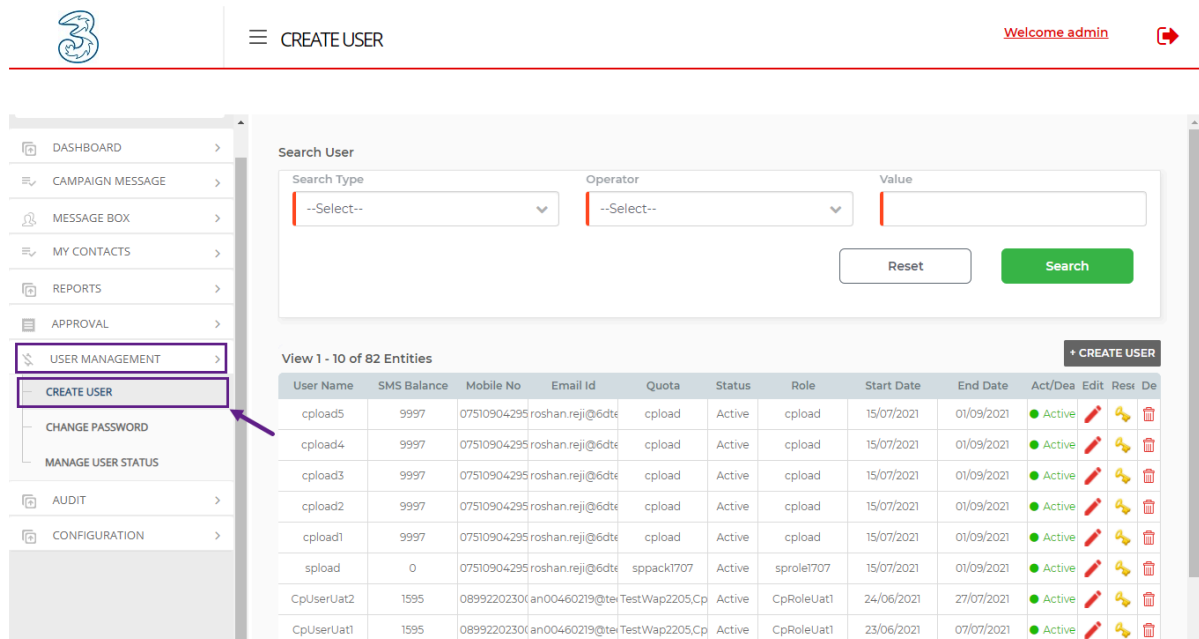

Or

Click **"Cancel"** to cancel the action.

10.1.3 Modify User

Using this option, you can modify the existing user detail.
 To modify the user:

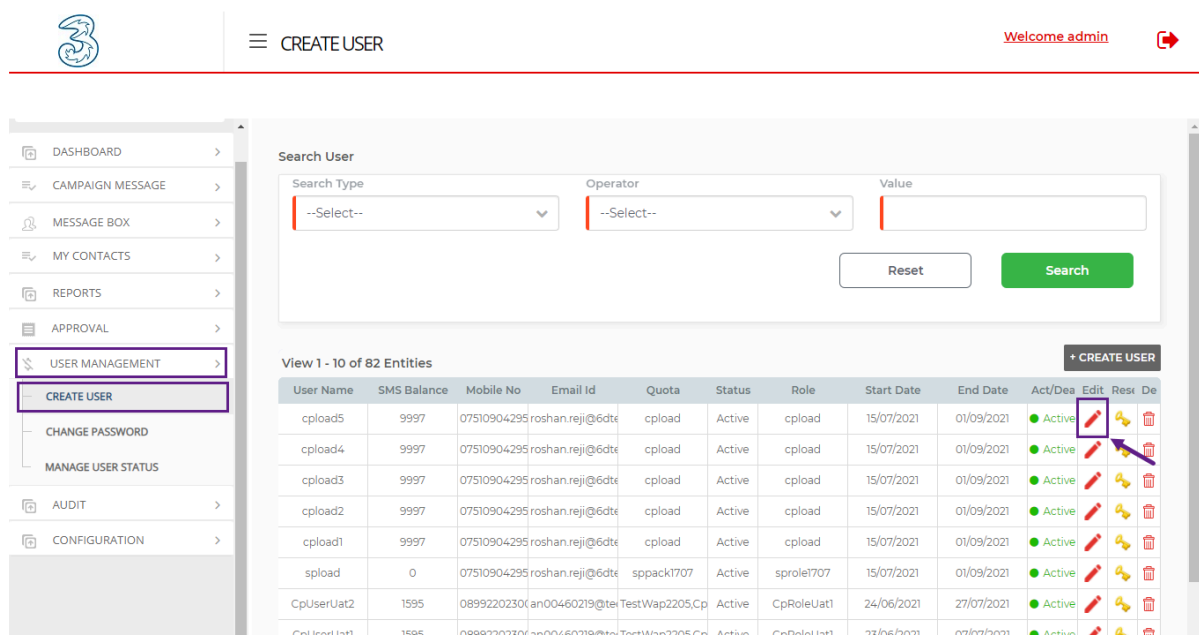

1. On the side menu, click **USER MANAGEMENT>> CREATE USER** to view the create user detail. The following screen will be displayed.

The screenshot shows the 'CREATE USER' screen. On the left, the side menu has 'CREATE USER' highlighted with a purple box and an arrow. The main area displays a 'Search User' section with dropdowns for 'Search Type' and 'Operator', and a 'Value' input field. Below this is a table titled 'View 1 - 10 of 82 Entities' with columns: User Name, SMS Balance, Mobile No, Email Id, Quota, Status, Role, Start Date, End Date, Act/Dea, Edit, Res, and De. The table lists several users, including 'cpload5' through 'cpload1', 'spload', 'CpUserUat2', and 'CpUserUat1'. Each row has icons for 'Active', 'Edit', 'Res', and 'De'.

Figure 115 User Management – Create User

2. On the **CREATE USER** screen, click the  **Modify** button to modify the existing group. Refer to the following screen.

This screenshot is identical to the previous one, but the 'Modify' button (pencil icon) in the 'Edit' column of the table is highlighted with a purple box and an arrow.

Figure 116 CREATE USER – Modify Button

- After clicking the **Modify** button, the following pop-up screen will be displayed.

- Click **Modify**.

A confirmation message is displayed indicating that the user is modified successfully.

10.1.4 Delete User

Using this option, you can delete the existing user.
To delete the user:

1. On the side menu, click **USER MANAGEMENT**>> **CREATE USER** to view the create user detail. The following screen will be displayed.

The screenshot displays the 'CREATE USER' interface. On the left, a sidebar menu lists various system functions, with 'CREATE USER' selected under the 'USER MANAGEMENT' category. The main content area features a search bar at the top with fields for 'Search Type', 'Operator', and 'Value', accompanied by 'Reset' and 'Search' buttons. Below the search bar, a table displays a list of users, showing columns for user details and action icons. A '+ CREATE USER' button is located in the top right corner of the main area.

Figure 119 CREATE USER – Delete Button

3. After clicking the **Delete** button, the following pop-up window is displayed.

The screenshot shows the 'CREATE USER' interface with a confirmation dialog box displayed. The dialog box has a title bar with the IP address '10.64.88.46:8322' and the text 'says'. The main text in the dialog is 'Are sure to Delete the User ? User gets deleted permanently!!!'. There are two buttons: 'OK' and 'Cancel'. The background interface is the same as in Figure 119, but the 'De' column icons are now disabled (greyed out).

Figure 120 Delete User – Confirmation Dialog

4. If you receive the message, **“Are sure to Delete the User? User gets deleted permanently!!!?”**, click **“Ok”** to confirm the action.

A confirmation message is displayed indicating that the user is deleted successfully.

Or

Click **“Cancel”** to cancel the action.

11 Configuration

Using this configuration, you can access the following options:

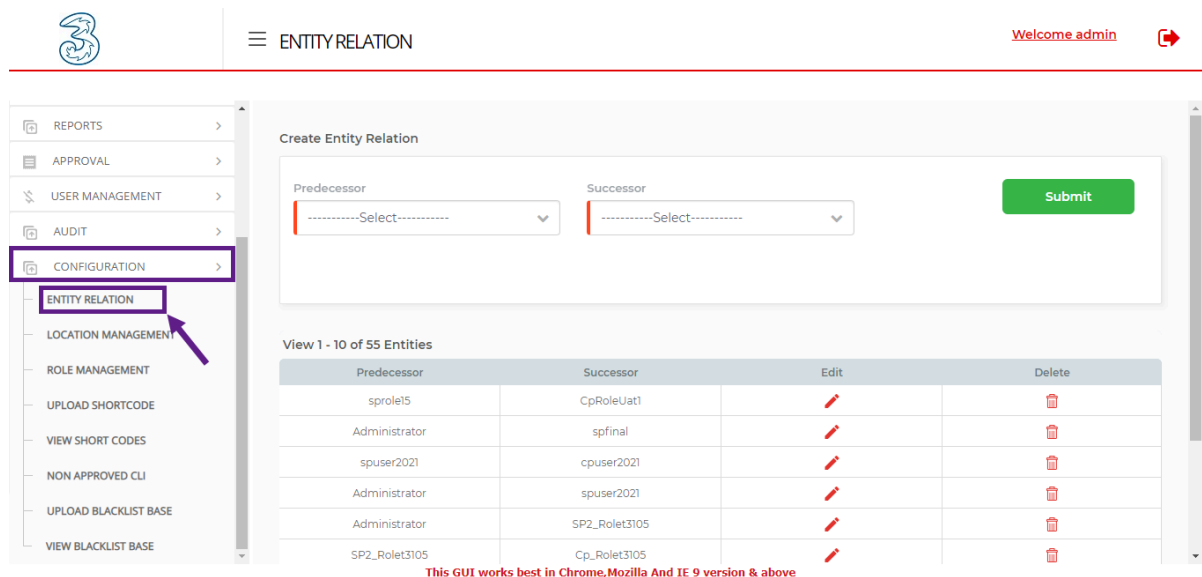

- Entity Relation
- Role Management
- Entity Relation

This option allows you to have the flexibility of adding desired roles under a specific role. A predecessor role can be assigned the desired successor roles under it.

You can also modify and delete the existing entity details.

To manage the Entity Relation:

1. On the side menu, click **Message Box >> Entity Relation** to view the entity relation screen. Refer to the following screen.

Create Entity Relation

Predecessor: Successor:

View 1 - 10 of 55 Entities

Figure 127 Configuration – Entity Relation Screen

34. Enter/Select the following details in the corresponding fields. If the fields are marked with “|” is mandatory.

Field	Description
Predecessor	Select the predecessor in the drop-down list. For example, Administrator.
Successor	Select the successor in the drop-down list. For example, Admin Role, and so on.

35. After entering all the required details, click the **Submit** button. Refer to the following screen.

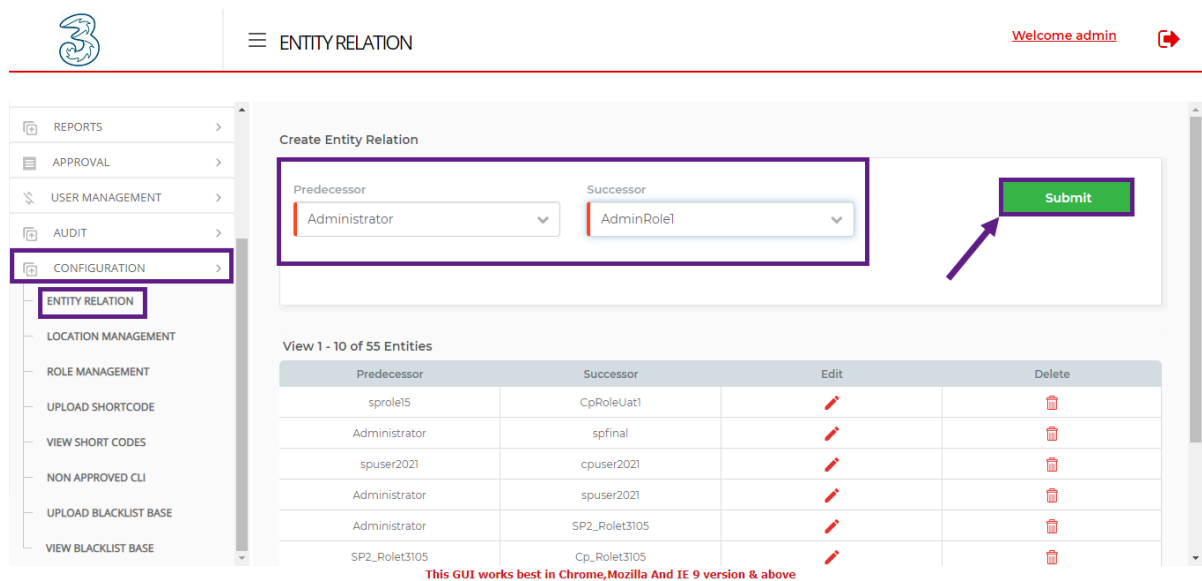

Figure 128 Entity Relation Submit Button

A success message will be displayed indicating that the **Entity** is created successfully.

11.1.2 Modify Entity

Using this option, you can modify the existing entity details.

To modify the Entity:

1. On the **Entity Relation** screen, click the **Modify** button to modify the existing entity details. Refer to the following screen.

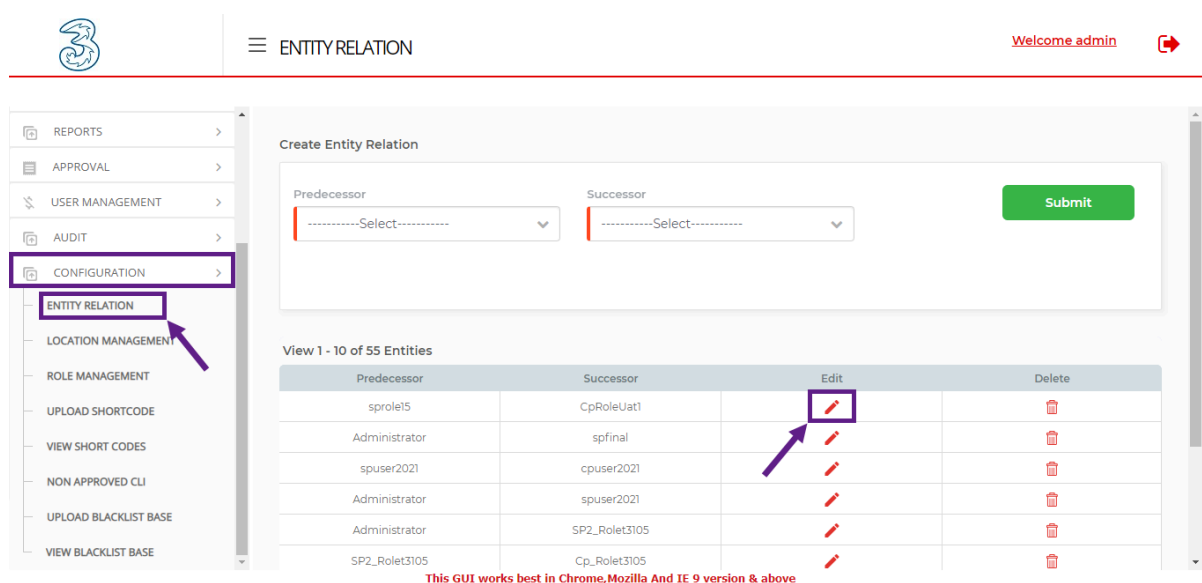

Figure 129 Entity Relation Modify Button

2. After clicking the **Modify** button, the following screen will be displayed.

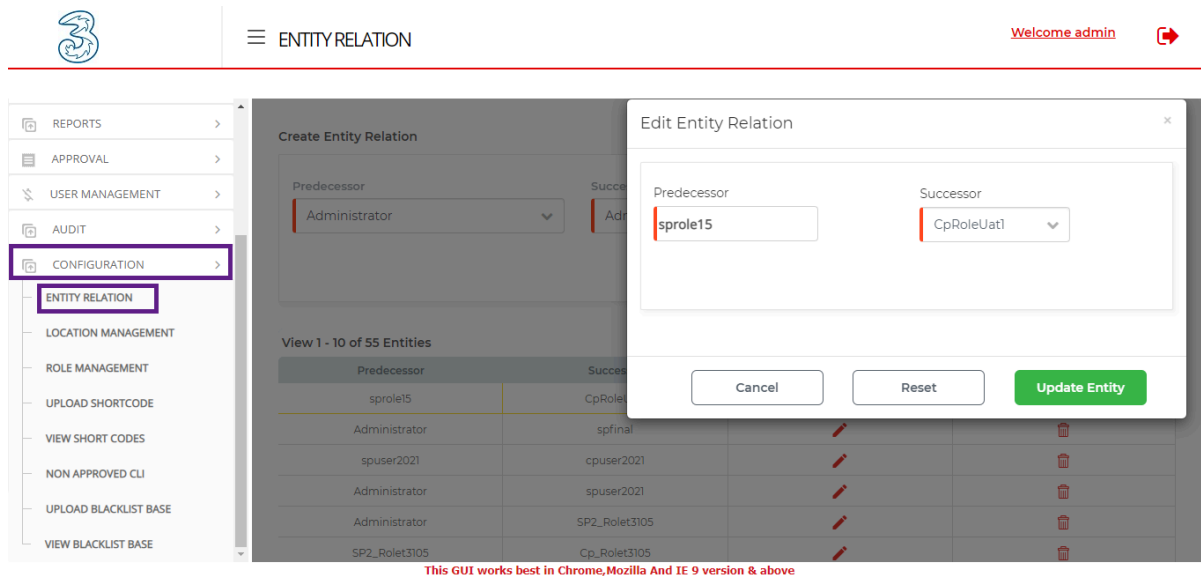

Figure 130 Modify Entity Relation Details Screen

3. Modify the necessary details and click the **Update Entity** button. Refer to the following screen.

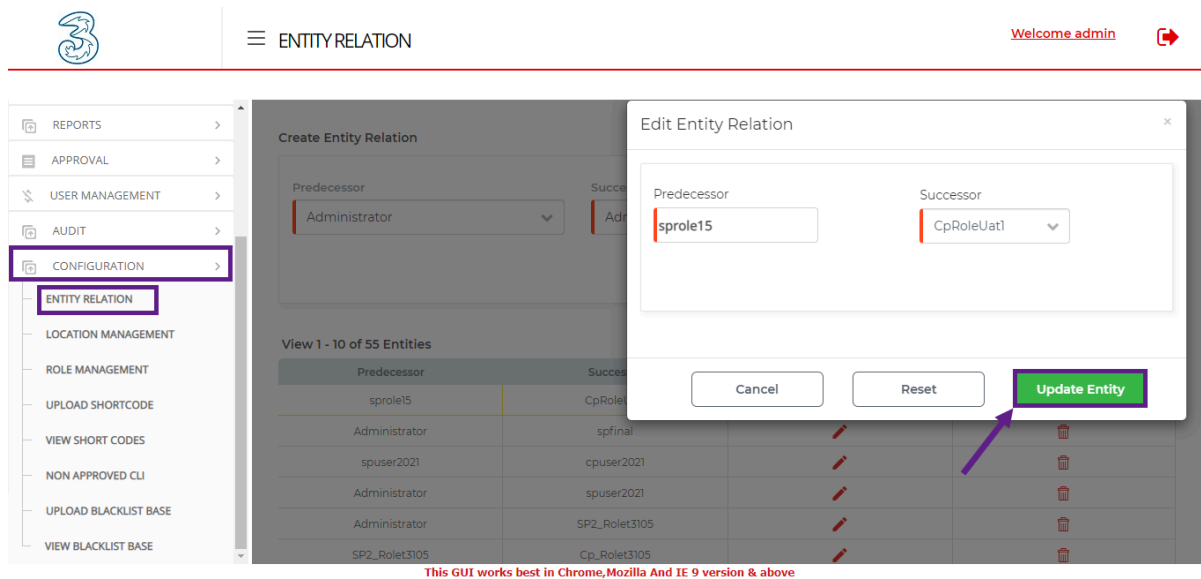

Figure 131 Update Entity Button

A success message will be displayed indicating that the **Entity** details are updated successfully.

11.1.3 Delete Entity

Using this option, you can delete the existing entity.

To delete the Entity:

1. On the **Entity Relation** screen, click the **Delete**  button to delete the existing entity. Refer to the following screen.

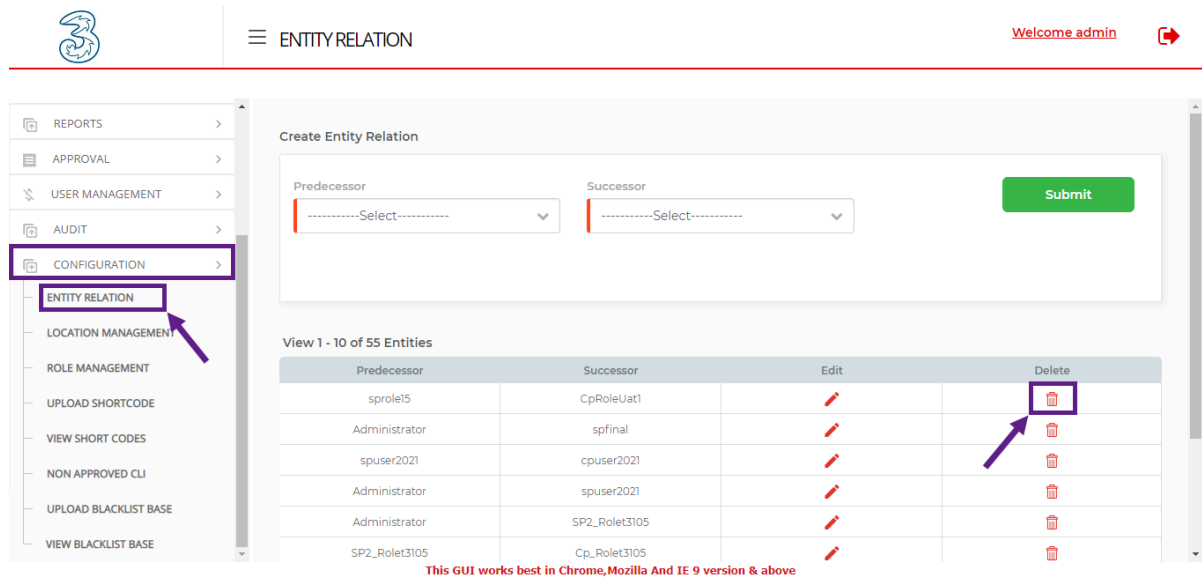

Figure 132 Entity Relation Delete Button

2. After clicking the **Delete** button, the following confirmation message will be displayed.

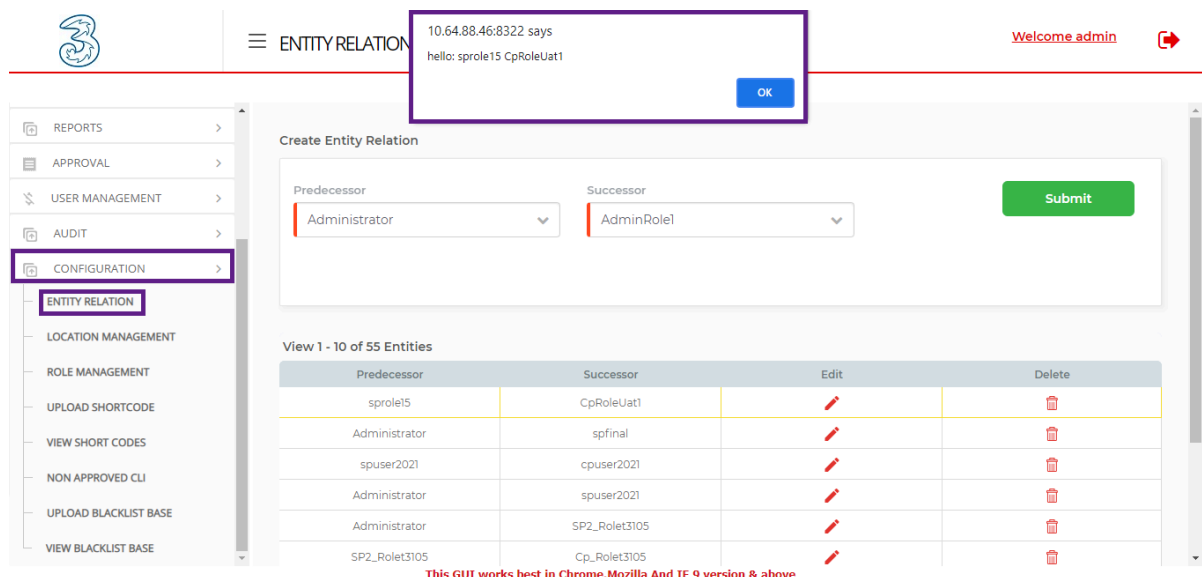

Figure 133 Delete Entity Confirmation Message

3. If you receive this confirmation message **"Are you sure want to delete this Entity?"** click "OK" to confirm the action.

A confirmation message will be displayed indicating that the selected **Entity** is deleted successfully.

Or

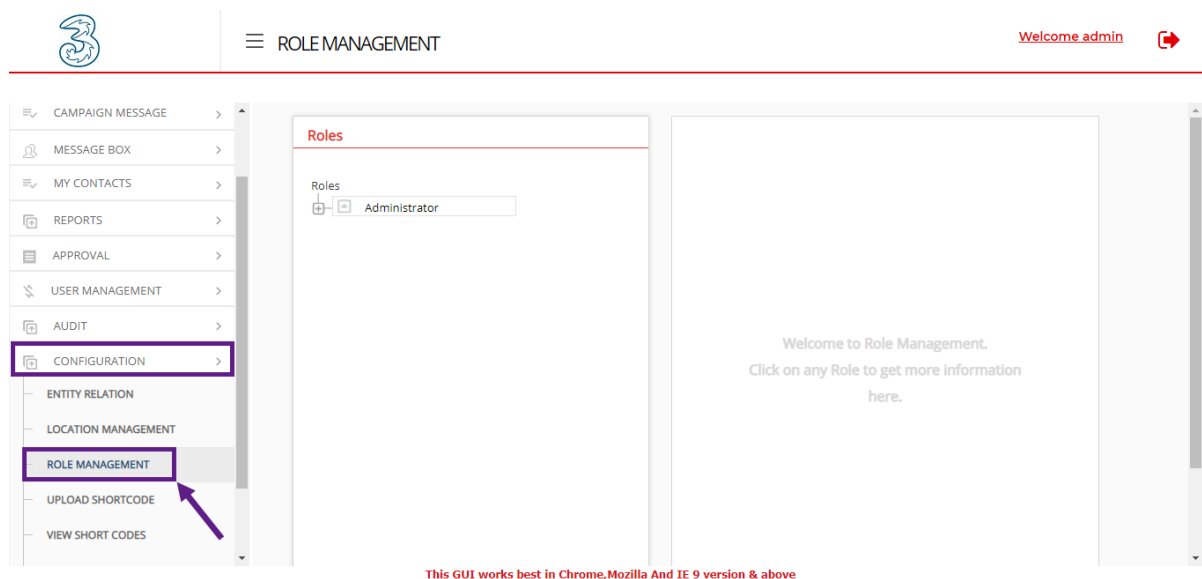

Click **"Cancel"** to discard the action.

11.2 Role Management

This option allows you to configure and manage roles. You can also give access control and menu control to the specific roles and delete the existing role also.

To manage the Role:

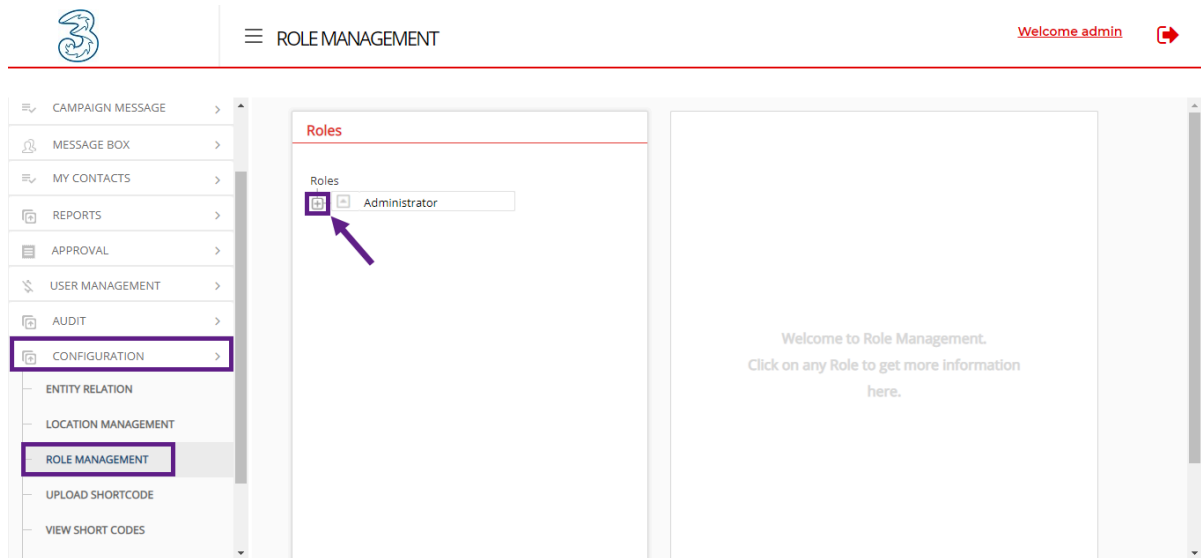

1. On the side menu, click **Message Box >> Role Management** to view the role management screen. Refer to the following screen.

This GUI works best in Chrome, Mozilla And IE 9 version & above

Figure 144 Configuration- Role Management Screen

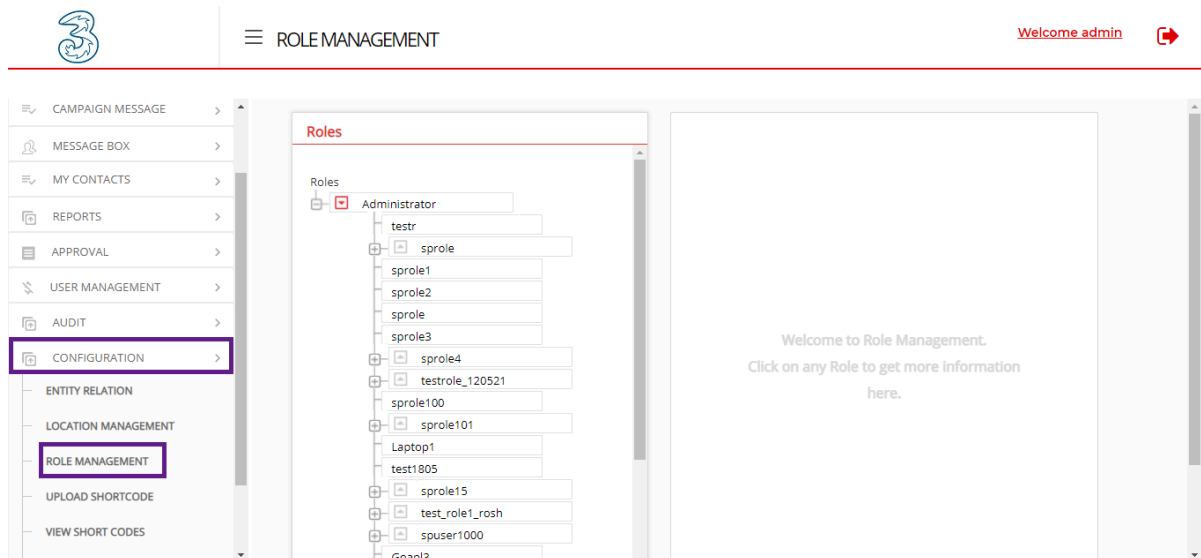

- On the **Role Management** screen, click the **Expand** button to expand the role details. Refer to the following screen.
