1 Instructions to the Reader

The instructions given below are followed throughout the document. For a better understanding of the material, go through the below instructions.

1. It is mandatory to execute the steps given in the numbered list to achieve the expected result.
2. Steps in the bulleted list explain the optional or additional menu elements. It is not mandatory to execute these steps to achieve the expected result.
3. Hyperlinks are used in the document to explain the optional menu elements. Click the hyperlink will navigate you to the corresponding page.
4. Commonly used GUI elements such as the Search box, reset button are explained in a separate heading to avoid repetition of content. For more information, refer to [**Commonly Used Options in GUI.**](#)

2 Commonly Used GUI Elements

The following are the options commonly used in the GUI.

- Tap  to navigate to the previous screen. Refer to the following screen.

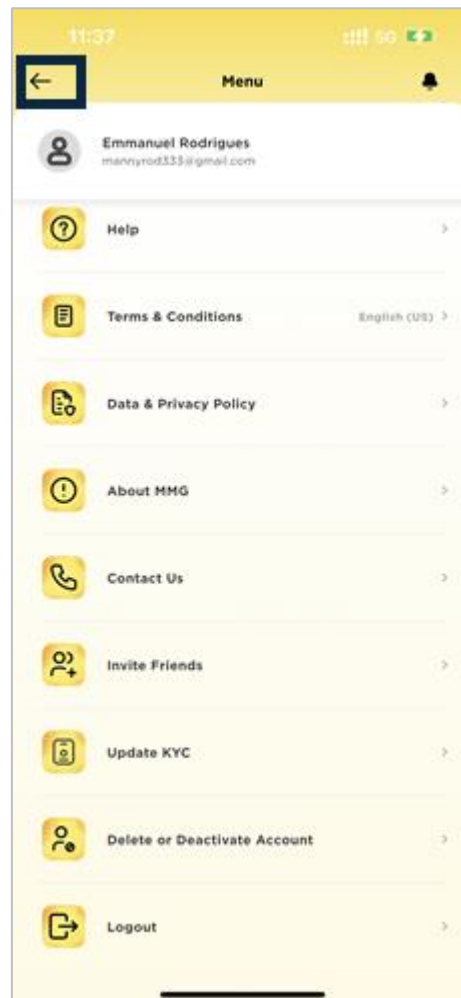

Figure 1 Tap Navigate to Previous Screen

3 Customer Mobile Application

MMG Guyana Customer Mobile App is an easy application to onboarding the customers. Customers can register by themselves into the customer mobile application using their register mobile number and providing all the required details. Once the customers registered in the application, they can create a login PIN and user that to login to the application each time.

Customers can manage the Bills, Recharge, Merchant Pay and Money Transfer and other features.

This manual provides a systematic explanation of features included in the MMG customer mobile application (only in Android).

4 Splash Screen

This splash screen allows you to view the overall functions of MMG mobile application. It appears when MMG customer mobile application is launched.

1. The following **Initial** screen is displayed when the MMG mobile application is launched.

Figure 2 MMG Launching Screen

Note: After capturing the selfie, it is compared with the photo on the uploaded government-issued ID.

- If the selfie verification does not successfully match the government-issued ID, the following error message is displayed.

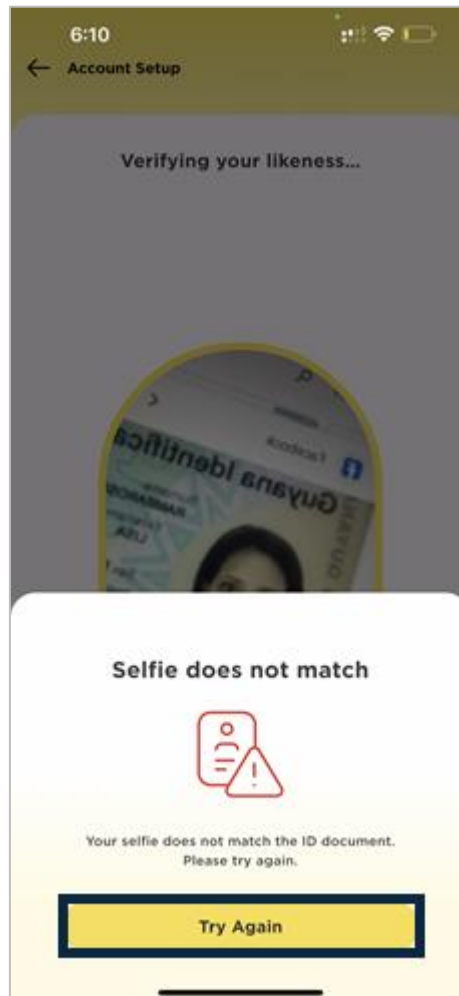

Figure 21 Selfie is Not Matching with Government ID Proof Error Message

- Tap **Try Again** to retake the selfie.

21. After successfully verifying the selfie liveness, the following success message is displayed.

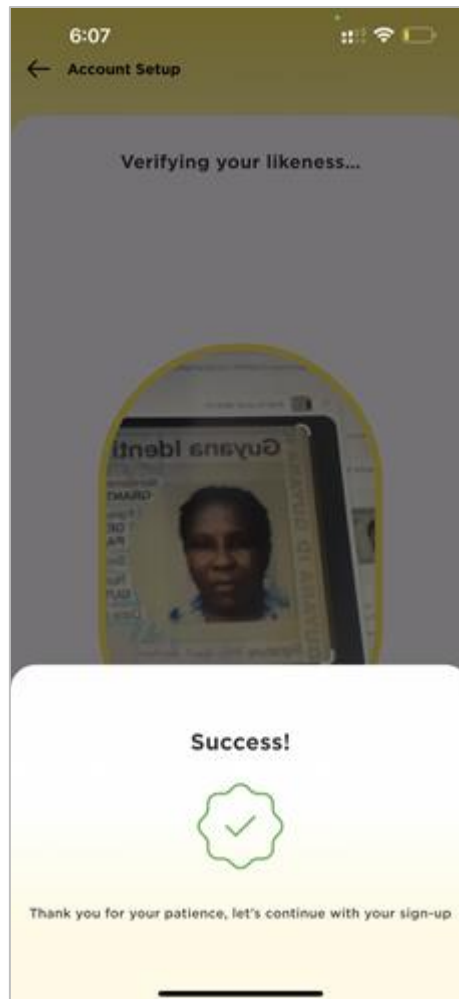

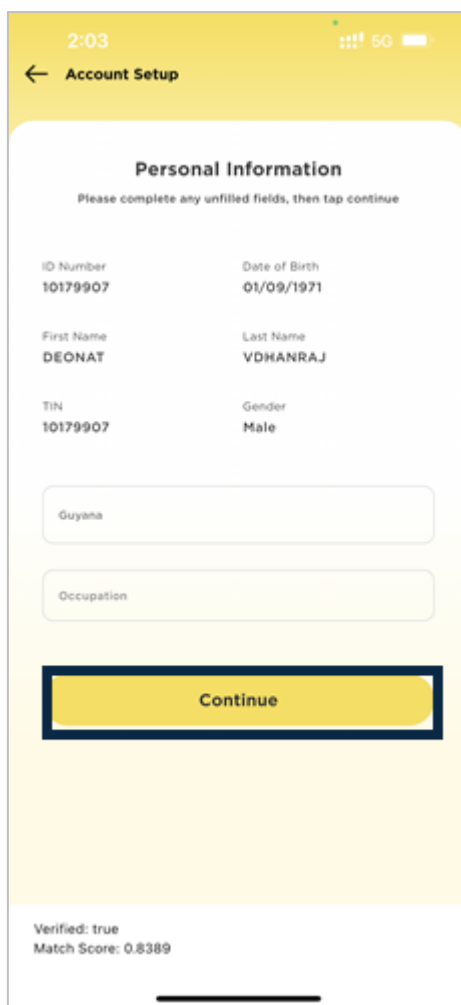

Figure 22 Verified Selfie Success Message

22. After success message, the following screen is displayed.

The screenshot shows a mobile app interface for 'Account Setup'. At the top, the status bar shows the time 2:03, 5G signal, and battery level. Below the status bar is a yellow header with a back arrow and the text 'Account Setup'. The main content area is white and titled 'Personal Information' with a subtitle 'Please complete any unfilled fields, then tap continue'. The form contains several pre-filled fields: ID Number (10179907), Date of Birth (01/09/1971), First Name (DEONAT), Last Name (VDHANRAJ), TIN (10179907), and Gender (Male). There are two empty text input fields for 'Guyana' and 'Occupation'. A yellow 'Continue' button is highlighted with a black border. At the bottom, a white footer displays 'Verified: true' and 'Match Score: 0.8389'.

Figure 23 Personal Information

Note: By default, the Personal Information fields are pre-filled using the uploaded identity proof. The customer can manually enter any fields that are not automatically filled.

23. Enter **Nationality** and **Occupation** and tap **Next**. Refer to the previous screen.

24. After tapping **Next** button, the following screen is displayed.

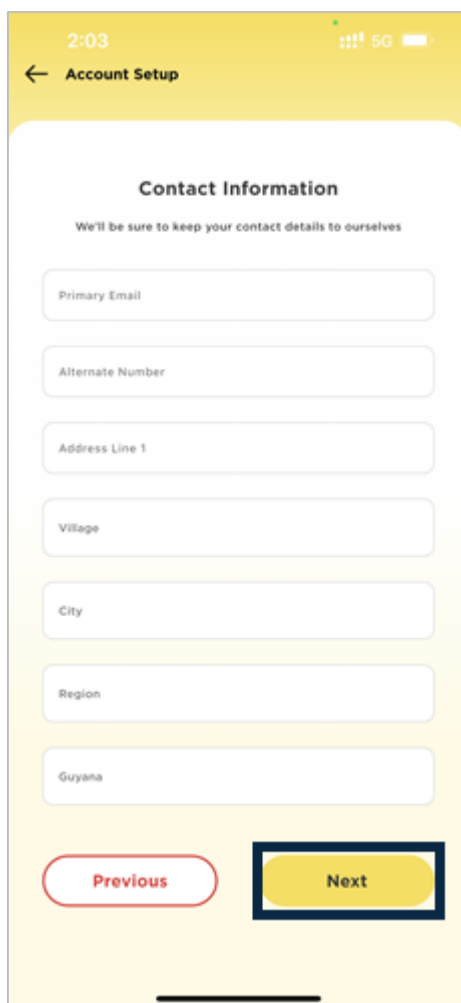

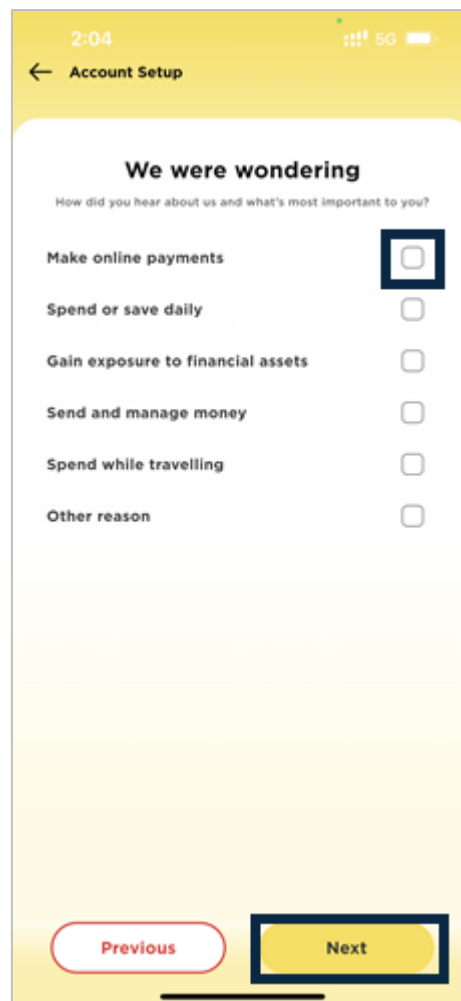

Figure 24 Contact Information

25. Enter the following information in the corresponding fields.

Field	Description
Primary Email	Enter the customer primary email in this field.
Alternative Mobile Number	Enter the alternative mobile number of the customer.
Address Line 1	Enter the customer address line 1 details.
Address Line 2	Enter the customer address line 2 details.
City	Enter the customer city name in this field.
Region	Enter the customer region name in this field.
Guyana	Enter the customer Guyana in this field.

26. After entering the details, tap **Next**. Refer to the previous screen.

27. After tapping **Next** button, the following screen is displayed.

The screenshot shows a mobile app interface for 'Account Setup'. At the top, the status bar displays '2:04', '5G', and a battery icon. Below the status bar is a yellow header with a back arrow and the text 'Account Setup'. The main content area has a white background with a yellow border. It features a section titled 'We were wondering' with the subtitle 'How did you hear about us and what's most important to you?'. Below this, there is a list of service options, each with a checkbox: 'Make online payments', 'Spend or save daily', 'Gain exposure to financial assets', 'Send and manage money', 'Spend while travelling', and 'Other reason'. The 'Make online payments' checkbox is highlighted with a blue square. At the bottom, there are two buttons: 'Previous' (white with a red border) and 'Next' (yellow with a blue border). The 'Next' button is highlighted with a blue square.

Figure 25 Services Selection

28. Select the required checkboxes to choose the **Services** you would like to use in the MMG Customer Mobile Application. Refer to the previous screen.

29. After selecting the Services, tap **Next**. The following screen is displayed.

13. Tap **Confirm Payment**. The following payment success message is displayed.

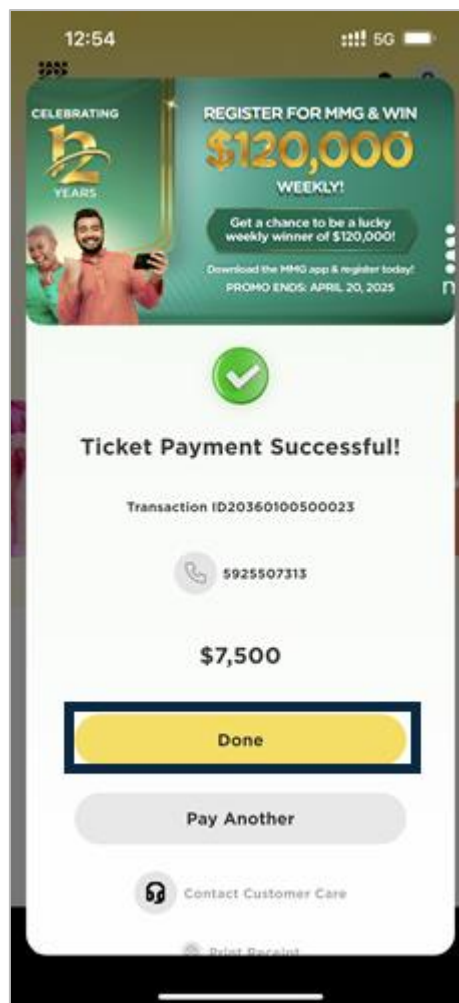

Figure 123 Payment - Success Message

- Tap **Done** to close the page.
- Tap **Customer Care** to contact customer care.
- Tap **Pay Another** to make the payment for the new ticket.

19 Send Money Unregistered

This option allows customers to send money to recipients who are not yet registered on the MMG platform. After the transaction is completed, the amount is debited from the customer's wallet and credited to the recipient's escrow wallet.

If the recipient later registers on the MMG platform, the money will be automatically transferred to their MMG account.

If the recipient chooses not to register, they can visit any MMG-associated agent outlet and present the notification they received about the incoming funds. The agent will verify the details, credit the amount to their own wallet, and provide the equivalent amount in cash to the recipient.

1. On the **Dashboard** screen, tap **Add** to send the money. Refer to the following screen.

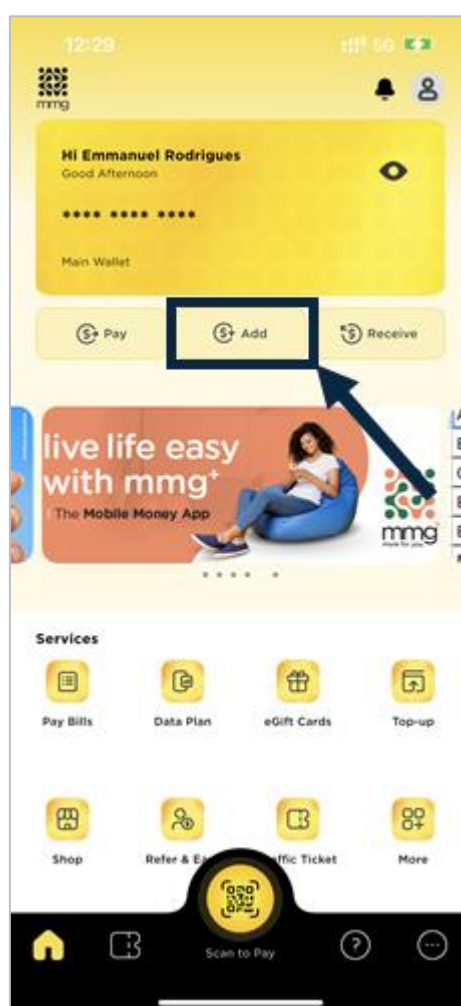

Figure 124 Dashboard – Add

2. After tapping **Add**, the following screen is displayed.

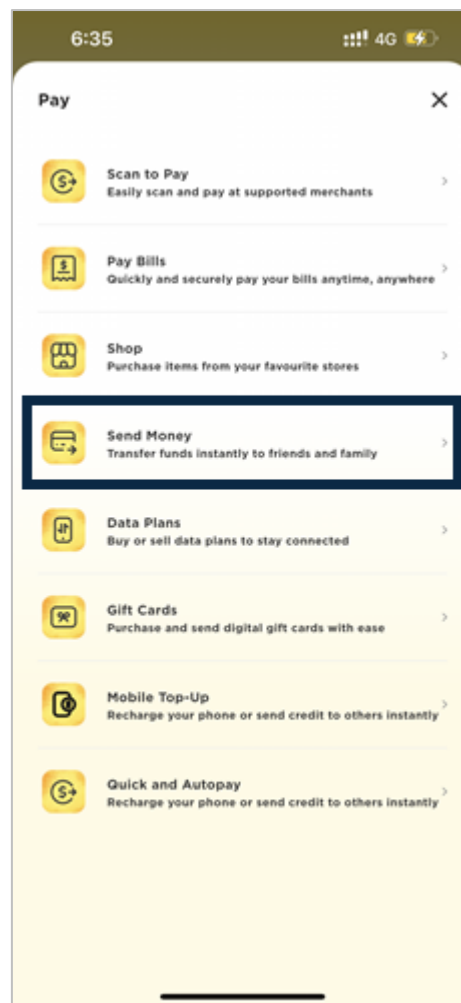

Figure 125 Add - Send Money

21 Cash Out Approval Initiated from Agent

This option allows customers to approve a cash-out request initiated by an agent outlet. When a customer has sufficient balance in their wallet and wants to withdraw it as liquid cash, they can visit any MMG-associated agent outlet.

The agent will log in to their app or portal, enter the customer's mobile number, specify the withdrawal amount, and send a cash-out request. The customer will receive this request in the MMG Customer Mobile App. After the customer approves it, the agent will provide the equivalent amount in cash.

1. On the **Dashboard** screen, tap **Receive** to approve the received request. Refer to the following screen.

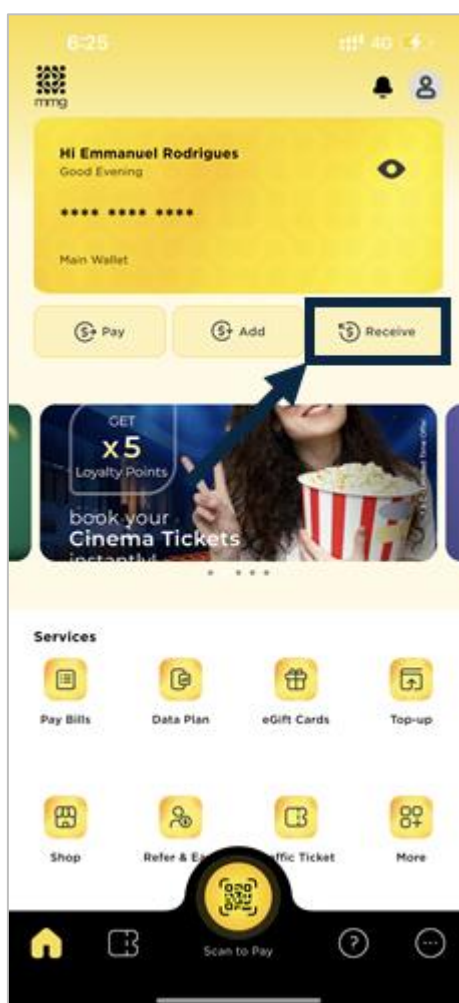

Figure 139 Dashboard – Receive
